BUNZL PROCESSOR DIVISION'S PRICE MATCH GUARANTEE*

WE'LL GLADLY MATCH ANY COMPETITOR'S ADVERTISED PRICE ON MATCHING PRODUCT.

* **What qualifies?** Your product may be eligible for price matching if it is: Identical to the competitor's product. The product must be a matching brand, model number and color to qualify. The product must also be a new product. Immediately available at a qualifying retailer or competitor. We match local competitors (including their online prices) and qualifying online competitors. Exclusions apply including, but not limited to, items sold by Marketplace vendors, competitors' service prices, special daily or hourly sales, and items for sale the Friday before Thanksgiving Day through the Monday after Thanksgiving. **WE WON'T BE BEAT ON PRICE.** We'll match the product prices of key competitors for immediately available new products (excludes clearance, refurbished and open-box items).

Special considerations:

- At the time of sale, we price match all local competitors (including their online prices).
- One price match per identical item, per customer, at the current pre-tax price available to all customers is allowed.

Our Price Match Guarantee does not cover:

- The online prices of retailers listed in the Special considerations section.
- Products shipped from or sold by third-party sellers on websites.
- Pricing only available to select groups of customers including Membership Program members, loyalty offers, discounts relating to non-warehouse membership or paid loyalty programs and government exchange store offers.
- Competitor offers including liquidation offers, trade-in offers, items denoted as Black Friday pricing and special daily or hourly sales.
- Any financing offers, bundle offers, items included in bundle offers, subscription services, free items, pricing errors, mail-in offers, coupon offers, items that are advertised as limited quantity, out of stock items, clearance items, open-box items, refurbished items, pre-owned items, voice-only deals, and items for sale the Friday before Thanksgiving Day through the Monday after Thanksgiving, whether offered by us or a competitor.

WATCH FOR THESE SYMBOLS:

SPECIAL ORDER ITEM — These products are non-stock or special order and may require additional shipping time or fees.

GREEN — Products marked with this image are eco-friendly and environmentally safe.

HACCP CERTIFIED — Product complies with HACCP regulations.

MADE IN USA — Products made in the USA.

Shipped by truck freight. Freight rates are available when ordering.

NO RETURN — Certain items in this catalog are not returnable and have a NO RETURN symbol next to them.

SDS SHEETS ONLINE — You can find SDS sheets on our products at https://bunzlnasds.appsint.com/SDSLibrary/

BUNZL EXCLUSIVE — These items are exclusive to Bunzl Processor Division.

HAZMAT — These products are considered hazardous materials and therefore could require special shipping. Call for details.

Scan QR codes with your mobile device for direct links to websites, videos and much more.

Thoroughly read and understand all safety instructions before attempting to use this product.

WARNING: Some products in this catalog may expose you to chemicals including DEHP Di (2-ethylhexyl) phthalate or BPA (Bisphenlol A) which are known to the State of California to cause cancer or birth defects or other reproductive harm. For more information, visit www.P65Warnings.ca.gov.

TERMS & CONDITIONS

Prices

Prices can change due to a variety of situations. Confirm current prices and availability by visiting our website: **BunzlProcessor.com** or by phone, fax, or e-mail. Prices are in U.S. dollars and do not include applicable taxes.

Payment Terms

We accept Visa®, MasterCard®, American Express®, Discover® and checks. We offer credit terms of Net 10 days for customers with a minimum monthly volume of $500, subject to credit approval.

International Customers

Please contact us directly for a "pro forma quotation" with current pricing, appropriate freight, duty, taxes and clearance costs.

Payments may be made in U.S. dollars, Visa®, MasterCard®, American Express®, Discover®, bank transfer, or irrevocable Letter of Credit confirmed by any U.S. bank. Include the invoice number with all payments.

Note: Some items are not available to be shipped outside of the U.S. Check with your sales representative for details.

Specification Changes

Due to continuing improvements, product specifications and pricing are subject to change without notice.

Discounts

Discounted prices for certain catalog items purchased in quantity do not apply to orders shipped outside the United States.

Satisfaction Guarantee

When purchasing from our catalog, you can rest assured that any product you order will meet your expectations — guaranteed! That's a promise from our friendly and knowledgeable Customer Service Representatives. However, in the rare case that any stocked supply item fails to meet with your expectations or approval, simply call our toll free number within 30 days and we can arrange for a repair, refund, exchange or credit towards your next purchase, except for those items noted as "No Return" items.

Call for warranty information on non-stock or special order items (i.e. equipment, doors, walls, etc.).

Note: A restocking or repair fee may apply on certain special order items.

Shipping

Unless specified, we will determine the most expedient and efficient means of shipment based on dimensional weight. Alternate delivery may require additional cost. Appropriate charges will be added to your invoice.

Bunzl Processor Division will not be liable for any claim, loss, or damage caused in whole or in part due to delay in or failure to make delivery when such delay or failure is directly or indirectly caused by act of God; strike or other labor difficulty; transportation problems; accident; act of any civil or military authority; act of war; or act of purchaser; or by the occurrence of any other contingency beyond Bunzl Processor Division's reasonable control.

Receiving/Claims

It is the buyers responsibility to thoroughly inspect shipments upon receiving.

Prior to signing for your items, check the number of packages received, as well as the condition of the product. Failure to do so will negate the ability to claim damages. Notification of short shipments or damage must occur within 2 business days of receipt of product for credit to be considered.

Report the details immediately to our Customer Service Department by calling **800-456-5624**. Keep the carton and all packing materials. Notify shipper of shortage or obvious damage at time of delivery.

Returns

Please call our Customer Service Department to obtain a return authorization number before returning items. When you call, please provide us with the following:

- BUNZL reference number (on packing slip) or invoice number
- Your purchase order number
- Date of purchase
- Reason for return

All items returned due to duplication or a change of need must be in unused, resalable condition and in its original packaging — within 30 days. Returned items may be subject to a restocking fee. Items returned due to damage occurring during shipping or defective products must be packaged so no further damage occurs.

Note: Returns without prior return authorization will be charged a re-stock fee and may be refused.

Note: Certain items in this catalog are not returnable and have a NO RETURN symbol next to them.

Some of these items include direct food contact items such as: casings, seasonings, packaging products, etc, medicines and medical supplies, certain chemicals, or coatings, stunner loads and solvents.

Confirming Orders

Please do not send a confirming order. If in your system you must send a confirming order, please mark it clearly as confirming to avoid duplication of orders sent.

FREE SHIPPING*

FREE GROUND SHIPPING

when you place an order for $500 or more from THIS BUYERS GUIDE!

*FREE SHIPPING does NOT include Next Day Air, 2nd Day or 3rd Day Select. Certain items may not qualify. This offer is good only on orders shipped Ground in the 48 contiguous states. Based on dimensional weight, we will determine the most efficient means of shipment. Products may ship by truckline.

Bunzl Processor Division (BPD)

BPD is a leader in the food processing and food packaging industries that services national platforms, as well as multi-plant, single-plant, small shops and game processors. Bunzl offers an assortment of high-quality products designed specifically to meet the needs of the food service and food processing industry, under a private label product line called Prime Source®, as well as a myriad of branded exclusive products specific to the food processing industry such as EdgeMaster™ bandsaw blades, the ToteAll 2000® material handling system, WorkHorse® protective wear, Processor's Choice Cures, Clarity™ Flexible Packaging options, Allegiant Towel & Tissue and many more. With more than 35,000 different supply items and 14 distribution centers serving Central and North America, including the Caribbean and Mexico, Bunzl Processor Division is an integral part of Bunzl Distribution Inc.

The Industry's Most Extensive Line of Flexible Packaging

Bunzl Processor Division's line of packaging supplies is comprised of the most recognized, trusted and valued brands in the industry. BPD offers our Clarity™ line of Cryovac® Shrink Bags and Clarity™ Rollstock Film for your forming and non-forming applications. Just call one of our packaging specialists and we'll do a no-charge, no-obligation review of your films. And if you choose BPD to be your supplier, we'll gladly stock all of your film sizes to reduce lead times and cost outlays for your business. Interested in Clarity™ Vacuum Pouches? BPD can produce any size bag you need – with lower costs, faster lead times and consistent, American-made quality. BPD also stocks a full line of meat bags, cook chill bags, poly bags and locker paper. Just give us a call for any of your packaging needs!

Customer Service From People Who Care

Bunzl Processor Division establishes close relationships with our vendors and because of this our representatives are experts on all the products that we sell — giving them a professional working knowledge of how these products best serve the food processing industry. Whether you have a rush order or need to arrange regular shipments, you can count on us for the friendliest, most dependable service. Our experienced team will answer your questions on pricing, product availability and any other technical questions you may have, as well as take your order.

We Stock What We Sell

Bunzl Processor Division is a leading distributor of plant operating supplies for the meat and food processing industry — offering such product categories as clothing, janitorial, sanitation, material handling, plant remodeling, safety, cutlery, scales, thermometers, processing supplies, seasonings, packaging as well as maintenance, repair and operation supplies (MRO). Our inventory includes over 35,000 items, so you don't have to wait long to receive the supplies you need.
We are committed to getting your order shipped to you fast and complete — it's that simple!

Easy Order Placement

ONLINE: Try out our convenient, easy-to-use online catalog. It has all your ordering needs in one place. Order online at **BunzlProcessor.com** 24/7. It's fast, easy and secure.

FAQ

BunzlProcessor.com Key Features

ADVANCED SEARCH FUNCTIONALITY

YOU CAN EASILY SEARCH BY:

- Manufacturer Part Number
- Category
- Keyword
- Brand
- Customer Part Number
- Bunzl Item Number
- GTIN or UPC Number

Search results include both products and related blog articles.

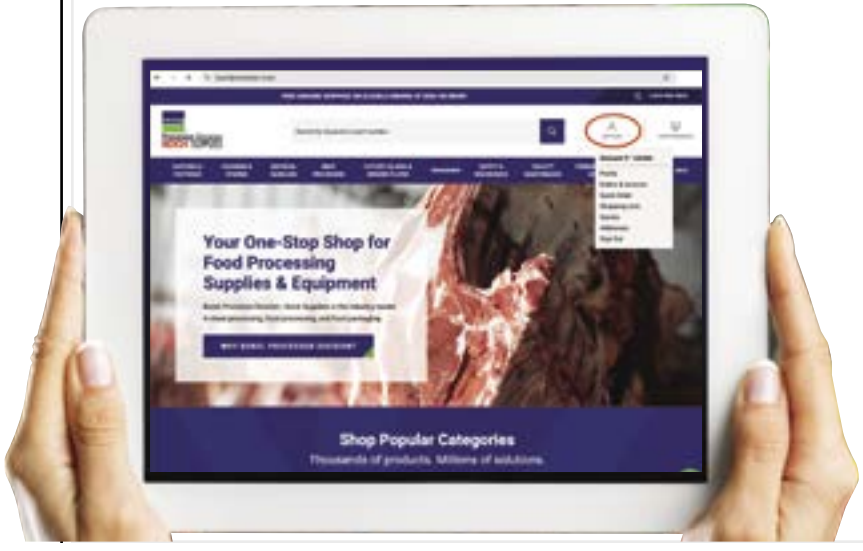

As a registered customer, when you log into our website you'll have access to a faster checkout, all your invoices, order tracking and more — all designed to make your purchase process smoother every time you shop. Below are just a few of the key features you'll have access to:

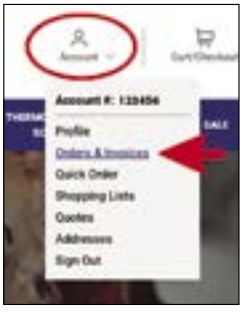

MANAGE MULTIPLE BUYERS UNDER ONE WEB ACCOUNT

CHOOSE FROM:

- **JUNIOR BUYER:** Can get quotes and submit shopping lists, but can't make purchases without approval.
- **SENIOR BUYER:** Same as Junior Buyer, but can place orders and view order history.
- **ADMIN:** Same as Senior Buyer, but can manage all aspects of the account, such as adding new users and creating business addresses.

EASY ORDER TRACKING

When logged in, under 'Orders & Invoices' you can easily search by Order Number, PO or Invoice Number.

Scan this QR Code with your smart device to watch videos about various website features!

On the Order Detail page, you can find shipping details on the right side of the page, or click **Track Package** to view the status of your shipment.

ASK OUR EXPERTS

What truly sets Bunzl Processor Division apart is our team of seasoned Product Experts — and our website makes it easy for you to connect with them directly. With decades of hands-on experience, our product and category specialists are passionate about helping you tackle any food processing challenge. Whether you're looking for guidance, recommendations, or solutions, we're here to support your success every step of the way.

NEW PRODUCTS

Introducing the CRC Food Safety Program:

Food Grade Silicone

Multi-purpose food grade silicone spray for food processing and handling applications.

- Forms a colorless, odorless, non-staining film.
- Eliminates binding and sticking in most metal to non-metal applications.
- Meets FDA Regulation CFR 21-178.3570.

ITEM NO.	PRODUCT	MFR #	SOLD BY
1210 00001	10 oz. Aerosol	03040	EACH
1210 01341	5 Gallon	03041	
1210 01331	55 Gallon	03042	

Food Grade Chain Lube

Formulated with a premium blend of synthetic lubricants and mineral oil.

- Minimizes metal fatigue and helps extend equipment life.
- Ensures deep penetration into chain links, pins, rollers and sprockets without messy overspray.
- Meets FDA Regulation CFR 21-178.3570.

ITEM NO.	PRODUCT	MFR #	SOLD BY
1210 00051	12 oz.	03055	EACH

Bio-Based Power Lube®

A readily biodegradable, vegetable oil-based multipurpose lubricant.

- Treated with antioxidants, extreme pressure, anti-wear and anti-corrosion additives.
- -20°F to 520°F temp range.
- Readily biodegradable.
- Vegetable oil-based.
- Fortified with ceramic.

ITEM NO.	PRODUCT	MFR #	SOLD BY
1210 00211	11 oz.	03090	EACH

Food Grade White Grease

This NSF H1 registered versatile grease is designed for heavy load applications requiring a long grease life.

- Protects equipment against rust, oxidation and wear.
- Resists throw-off, shear breakdown as well as water and detergent wash out.

ITEM NO.	PRODUCT	MFR #	SOLD BY
1210 00251	10 oz.	03038	EACH

Food Grade Machine Oil

For use on food processing equipment. Penetrates to loosen rust, scale, dirt and corrosion.

- Meets FDA Regulation CFR 21-178.3570 for incidental food contact.
- Non-silicone formula is virtually colorless and odorless.

ITEM NO.	PRODUCT	MFR #	SOLD BY
1210 00041	11 oz. Aerosol	03081	EACH

Food Grade Penetrating Oil

An effective and efficient general purpose lubricant for use on food processing equipment.

- Penetrates and loosens rust, scale, corrosion and dirt to free corroded parts and fasteners.
- Contains no silicones.

ITEM NO.	PRODUCT	MFR #	SOLD BY
1210 00061	11 oz.	03086	EACH

DUNLOP PROTECTIVE FOOTWEAR

MADE IN USA

PUROFORT® FoodPro Steel Toe Boots

35% lighter than traditional rubber and PVC boots!

- Resistant to mineral, animal and vegetable oil, fats, blood, disinfectants and various chemicals.
- Highest slip resistant sole of any boot. Certified slip resistance (EN ISO 20345:2011 S4 CI SRC).
- Complies with CSA Z195-14 Omega, ASTM F2413-18 M/I/C EH. • Steel toe cap for added safety.
- Remains flexible at low temperatures. • Shock-absorbing heel. • Sole designed for specific food processing areas.
- Five colors to reduce cross-contamination. • Seamed anti-bacterial lining. • 14-inch upper.
- Thermal insulation keeps feet warm in temperatures as low as -4 °F and comfortable in hot conditions.
- Extra smooth upper for easy cleaning. • Orthopaedic insole design for superior comfort.
- Energy absorbing heel for extra ergonomic support.

NOTE: Our boots can be ordered and worn by men or women. There is a two size difference between men's and women's sizes. A woman ordering a boot should order two sizes smaller than her regular size. Example: women's size 9 would order men's size 7.

Acifort® MetMAX Boots

Provides maximum protection for high-risk environments.

- Reinforced PVC for improved chemical resistance, flexibility and product lifespan.
- Full safety footwear with certified metatarsal and ankle protection.
- Snugfit and comfort insole for superior comfort and support.
- SRC-rated outsole for anti-slip protection. • Dual-density midlayer absorbs impact.
- Tread wear indicators warn when its time for replacement.
- Safety standard: ASTM F2413-18 M/I/C PR EH Mt and ASTM 3445-21 SR.

ACIFORT® is Dunlop's unique invention of PVC, nitrile rubber and polymers. Nitrile rubber ensures a longer lifetime and better resistance to oil, fat, blood and chemicals. Polymers add flexibility to your boot, thereby increasing comfort.

Oliver Boots 45680C

BOOTMAKERS OLIVER SINCE 1887

by Honeywell

Composite toe boots offer high-impact protection and is 40% lighter than traditional steel toe caps for less fatigue when worn all day. Meets ASTM F2413-11 M I/75 C/75 Mt/75 EH.

SPECIAL ORDER ITEM

- 8 inch, lace-up, insulated, liquid-resistant, black leather.
- NATUREform composite toe impact protection.
- PORON XRD metatarsal guard.
- SYMPATEX waterproof liner to help keep feet dry.
- 600-gram Thinsulate ULTRA liner for sub-zero environments.
- NANOlite and COMFORTcushion technology help reduce leg fatigue and enhance comfort.
- All-terrain, TPU soling technology consists of a light-weight, shock absorbing low-density PU (polyurethane) midsole cushions the foot with each step.
- Outsole design is slip-resistant to help prevent worker slips and falls and is heat-resistant to temperatures up to 266 °F (130 °C).

8-inch lace-up design.

Composite toe.

GET A GRASP ON THE RIGHT GLOVE FOR YOU

Eliminate the guesswork when ordering gloves, just ask yourself the following questions:

What Size Gloves Should I Order?

This is very important, because a glove that is either too tight or too loose can be both uncomfortable and hazardous in the workplace.

GLOVE SIZE CHART

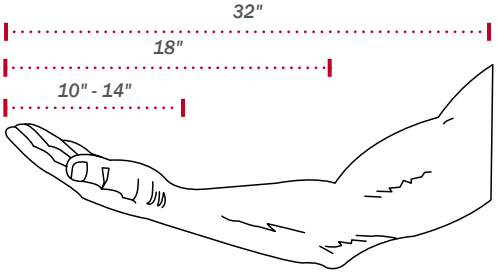

X-SMALL	SMALL	MEDIUM	LARGE	X-LARGE
6-7	7-8	8-9	9-10	10-11

How to find your size:
Measure the widest part of your hand, starting above your thumb and measuring across the palm and around the back of your hand (see right). The size in inches corresponds to the size of the glove (i.e. if your hand measures 8 inches, then you should wear a size 8 glove).

Which Glove Length Should I Choose?

The length of glove you should order is directly related to the application for which it is to be used. Select glove length by determining the depth to which your arm will be immersed in liquids, or whether it is to be used for splash protection.

- **Wrist and Forearm Lengths (10" - 14")** – Protects the hand and wrist for most applications.
- **Elbow Lengths (18")** – Offers splash protection and immersion capability.
- **Shoulder Lengths (32")** – Ideal for full arm immersion applications.

Generally, the length of a glove is measured from the tip of the middle finger to the outer edge of the cuff.

What Types of Glove Cuffs Are Available?

There are five different types of cuffs from which to choose. Not all styles are available for every glove – the cuffs differ according to application.

Straight Cuff

Rolled Cuff

Pinked Cuff

Safety Cuff

Knit Wrist Cuff

The five most common cuff styles are:

- **Straight Cuff** – Offer a snug fit around the wrist.
- **Rolled Cuff** – Added protection to the skin from liquid and chemical run-off.
- **Pinked Cuff** – Used on knit-lined gloves to minimize raveling.
- **Safety Cuff** – A short, open cuff made from stiff material to provide added protection to the wrist area.
- **Knit Wrist Cuff** – Enhance warmth and provide a close fit to prevent debris from entering glove.

Do Glove Linings Make A Difference?

Linings make a difference in the comfort of the glove and they also have some added benefits that can be of value for certain applications.

- **Flock Lining** – Shredded cotton or synthetic fiber applied to the interior of the glove. Absorbs moisture making gloves easier to put on and remove.

Flock Lining

Knit Lining

Unlined

- **Knit Lining** – Cotton or synthetic material knitted to the interior of the glove. Knit linings absorb perspiration and makes gloves easy to put on and remove.
- **Unlined** – Offer superior tactile sensitivity and greater dexterity than lined. Unlined gloves with powdered interiors make them easier to put on and remove.

What Are My Options for Non-Waterproof Gloves?

Polyester/Cotton –Poly/cotton blends are commonly used in string knit gloves because of their comfort, durability and excellent laundering characteristics. By mixing polyester with cotton, shrinkage can be minimized.

Kevlar® – Kevlar is a man-made organic fiber developed for use in high performance applications. The par-aramid fiber has a high-resistance to cuts and slashes which makes it ideal for use in applications where sharp objects are being used. The high tensile strength and low weight of Kevlar makes it durable yet light-weight to wear. Kevlar is flame resistant, self-extinguishes and can be used in elevated temperatures.

Blended Kevlar/Cotton/Polyester – As gloves are knit, Kevlar is mechanically blended on the outside of the gloves to provide cut protection. Only a few Kevlar threads are woven into the cotton and polyester threads that are used on the inside to provide a very comfortable protective-glove material.

Leather – Leather is the hide, or skin of an animal. The most widely used leather for gloves is cowhide. Other leathers used are pigskin, goat skin and deerskin. Leather is used because it offers abrasion resistance, is flexible and allows air through its pores. Hides are processed in tanneries by applying chrome sulfate and bichromate of potash (the reason they are called “chrome tanned”) along with coloring agents. After processing, the hides are split. The durability of leather is in direct proportion to its thickness, not to its location on the animal.

Grain Leather – The leather is in the outer, or hair, side of the hide. It is split off the side or belly. Side grain has few cosmetic blemishes. It varies in thickness and is supple. The leather is generally used in garments. Belly grain are small hides that are consistent in thickness and have a good feel.

FAQ

North® Nitri-Knit™ Supported Nitrile Coated Gloves

High performance supported nitrile gloves, excellent protection against solvents, caustics and animal fats.

- Complies with USDA and FDA regulations, 21 CFR, for use in food processing.
- Gloves will not swell, sag or weaken from fat absorption.
- Nitrile offers superior mechanical strength and outperforms supported natural rubber, neoprene and vinyl gloves when exposed to solvent, caustics and animal fats.
- True dip coated glove has a permanent bond of nitrile to inner-liner; won't peel apart.
- Pebble textured for added grip on wet or dry surfaces.
- Hand portion is treated with a permanent anti-bacterial and anti-mildew agent.
- Insulated versions recommended for temperatures from -10 °F to 300 °F (-23 °C to 149 °C).

NOTE: Order one size larger in this style of glove.

Insulated gloves provide added protection for hot or cold applications. Recommended temperatures -10 °F to 300 °F.

PROTECTS UP TO 300 °F

DuraScrim™ 3-Piece Double-Coated PVC on Polyester Rainsuit

TINGLEY

Jacket, overalls and detachable hood.
8-ounce material weight, 10.5 mil thick.

- Tear-resistant, open weave polyester scrim fabric is sandwiched between two layers of flame resistant PVC coating.
- Flame resistant self-extinguishing with flameout and afterglow less than or equal to 2 seconds after removal of ignition source. Test method ASTM D6413.
- Therm-O-Rad sealed seam construction for good chemical splash protection and 100% waterproof protection.
- Full cut shoulder with 90° sleeve to body angle for maximum freedom of movement.
- Storm fly front seals out wind, rain and contaminants.
- Non-conductive, non-corrosive snaps and buckles.
- Thicker outside coating for better abrasion resistance — lighter interior coating protects fabric from chemical contamination.

Detachable hood.

Therm-O-Rad sealed seams.

Storm fly front.

Take-up snaps on ankle cuffs, sleeves and waist ensure the best fit.

Floor Drain Brush

Handle and brush utilize reverse threading, so the brush and handle cannot be used with other handles or brushes, preventing cross contamination.

- Long-lasting polypropylene bristles stand up to rugged usage.
- Brush head available in three diameters: 3, 4 or 6 inches.
- Choose from two handle lengths: 36 or 48 inches, both with 1 inch diameter.
- Handles and brushes are interchangeable and sold separately.

Handle has female thread.
Brush head has male thread.

Handle labeled in English and Spanish.

A HANDLE FOR EVERY APPLICATION

Which Handle Should I Order?

Tapered handles fit most squeegees. Threaded handles fit scrub brushes, push brooms and some squeegees. The handles we list with these products on the following pages, are only our recommendation.

NEED HELP? Call one of our Customer Service Representatives for additional information, or to find out about other types of handles not shown.

Remco Lobby Dust Pan and Broom

Made especially for food processing facilities — no hard angles that could trap food residue or bacteria and can be easily disassembled and reassembled for regular washing and sanitizing.

- The 37-inch handle prevents back pain that stems from leaning over shorter dustpans.
- Large, 7-inch x 14-inch bin allows for big and small cleanup jobs.
- High-tension hinge lock holds pan open for easy usage and is activated by pushing the dustpan handle back until the lock clicks into place.
- Hanging holes allow the tools to be hung from any hook-based storage rack.
- Grips provide enhanced handling. • FDA-compliant materials.

Quickly store the accompanying broom in the fitted capture located on the dustpan lid.

Microfiber™ Cleaning System

Microfiber material drys faster and more thoroughly than common rags and rag mops — reducing the potential for encouraging bacterial, mold and mildew growth.

A. Wet Mop Pad

- Greater surface contact eliminates the need to mop the same area over and over.
- Special looped-end fibers glide over floors for easier mopping, no linting.
- Available in two sizes: 18 inch or 24 inch.

B. Dry Mop Pad

- Ribbed center mat attracts and holds dust like a magnet.
- Large looped fringe keeps dust from flying; grabs larger particles and debris.
- Unique design polishes hardwood, marble, terrazzo and other smooth surfaces as you dust.
- Available in two sizes: 18 inch or 24 inch.

C. Aluminum Heads

- For use with wet or dry microfiber floor pads.
- Heavy-duty aluminum construction.
- Triple riveted VELCRO® for durability.

D. Telescoping Aluminum Handle

- Designed for use with aluminum mop head shown above.
- Handle extends from 40 to 70 inches.

Mop Heads attach easily to Aluminum Head with triple-riveted VELCRO®.

NOTE: Handle, aluminum head and mop pads are all sold separately.

J-Fill® QuattroSelect® Dispensing System

Diversey
A SOLENIS COMPANY

Wall-mounted dispensing system that accurately dispenses four different products into bottles or buckets. This system is safer, more reliable and more accurate than any other chemical dispensing platform in the industry.

- Simple bottle installation. Simply select four cleaning products from the list below.
- One-handed low flow bottle filling, or use the hose to fill a bucket.
- Remote high flow bucket/autoscrubber fill gun. • SmartValve™ product selection.
- No metering tip installation — bottles come pre-tipped to ensure dilution accuracy and cost control.
- Easy to repair, quick change manifold. • Powder-coated locking steel doors to prevent misuse.
- Product identification windows. • Drip tray with drain hose.
- Meets ASSE 1055-B back-flow prevention requirements.

Simple installation.

Remote high flow bucket/ autoscrubber fill gun.

SmartValve™ product selection.

Low flow bottle filling option.

- Unit Dimensions: 24-1/4 inches H x 18-1/2 inches W x 7-1/2 inches D.
- Weight: 15 pounds.
- Low Flow Rate: 1.5 gpm.
- High Flow Rate: 3.1 gpm.
- Water In-Let Hose: 4 feet.
- Remote Bucket Fill Hose: 8 feet.
- Drip Tray Drainage Hose: 8 feet.
- Water Pressure: 30-85 psi.
- Water Flow: Less than 2.0 gpm.
- Water Temperature: 50-100 °F.

Enviro Terra™ Acid Replacement Cleaner

A totally natural cleaner that combines the high performance of acids with the mildness of liquid dish soap.

- Same cleansing power of acids, without the unpleasant side effects such as skin burns and invisible toxic fumes.
- Effectively removes calcium, lime, rust and other deposits typically found in descaling and rust removal applications.
- Special clinging action allows longer dwell time on vertical surfaces – easily cleaning complex surfaces like piping, valves and crevices without leaving film or residue.
- Perfect product for manufacturing equipment, building maintenance, food services and washrooms.
- Not classified as a hazardous material. In fact, it is biodegradable.
- Non-toxic, non-corrosive, non-fuming, non-caustic and non-flammable.

Safe on skin!

Penny dipped in Enviro Terra for less than 30 seconds. No scrubbing!

CHEMICAL INFORMATION

pH, pH (Neat)

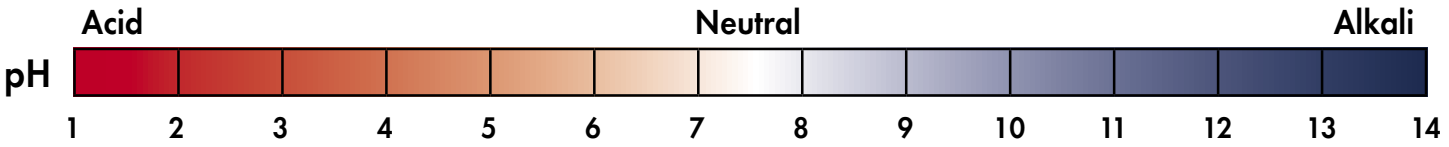

pH is a measure of the acidity or alkalinity of an aqueous solution. Solutions with a pH less than 7 are considered acidic and solutions with a pH greater than 7 are considered to be alkaline or basic. Neat refers to a solution that is undiluted from its concentrated form.

Cationic

Refers to a solution that has greater protons than electrons resulting in a positive charge. Cationic sanitizers are self-foaming and generally used for external or environmental sanitizing.

Solvent Cleaner

Solvented cleaners are used in conjunction or as a replacement for alkaline cleaners. Solvent cleaners are good for removing oils, fats, resins and glues in the food industry.

Diversey CHEMICALS: PRODUCTION AREAS

Chemical Color Code System:

- **ACIDIC** — A solution that has a pH less than 7. Acidic solutions in the sanitation industry are used to remove organic soils such as mineral and scale deposits and returning shine or luster to stainless steel surfaces.
- **ALKALINE** — A solution that has a pH greater than 7. Alkaline solutions in the sanitation industry are used to remove soils such as fats, greases and proteins.
- **CHLORINATED** — Chemicals that contain sodium hypochlorite (NaOCl). This compound is contained in sanitation chemicals to remove protein soils.
- **CAUSTIC** — Caustics typically refer to cleaning chemicals that contain sodium hydroxide. These chemicals have a very high pH and are used for heavy-duty cleaning applications such as CIP, smokehouses, etc.
- **QUATERNARY** — Refers to a particular type of sanitizer containing ammonium chloride. Quat sanitizers are self-foaming and provide a bacteriostatic residual film which provides microbial defense for a period of time after it has been applied to an equipment surface.
- **MILD** — Refers to products that are a neutral pH chemical.

NSF RATING CODES

CODE	APPLICATION	CODE	APPLICATION
A1	General cleaning agents for all surfaces and areas.	D2	Partial immersion: Designed for areas with limited space. Subject to outside temperature variables.
A3	Acid Cleaners for all departments.	L2	Enzymatic compounds for use in sewer and/or drain lines.
A4	Floor and wall cleaners for use in all areas.	E1	Odorless hand washing or sanitizing compounds requiring rinse with potable water after use.
A5	Floor and wall cleaners for subfreezing temps.	E2	One step hand washing or sanitizing compounds requiring rinse with potable water after use.
A7	Metal polishes — non-food contact	E3	Hand sanitizing compounds. No rinse required after use.
A8	Degreaser and Carbon Remover for cooking and smoking equipment and related surfaces.	E4	Hand creams, lotions and cleansers. Use only when leaving plant.
B1	Laundry products — food contact.

Oven, Grill and Smokehouse Cleaner

Removes grease, soot, tar and other accumulations from smokehouse walls, floors and ceilings.

- With a pH of >12.5 and caustic formulation, it offers the performance of traditional caustic oven, grill and smokehouse cleaners.
- Thickened formula sticks to vertical surfaces to allow for longer dwell time and better cleaning.
- Highly effective on grease, fats, oils, carbon, dirt and baked-on deposits on food prep and cooking surfaces such as ovens, grills, deep fryers, smokehouses and meat curers.
- Keep away from heat, open flames, and sparks
- Biodegradable.

HydroPro Nozzle

Ergonomically designed handle.

- Easy-to-pull trigger adjusts and locks-in spraying pattern in one smooth movement. No pressure maintenance needed on trigger.
- 100% stainless steel housing with replaceable nylon outer cover stands up to abrasion and impact.
- Rated at 150 psi, +180 °F, flow rate: 7 gpm.

1/2-inch Female NPT inlet.

Strahman

MADE IN USA

INCLUDED: 3/4-inch Swivel Barb!

Attach to standard garden hose with stainless steel hose clamp, sold separately.

Item# 3095 0553 ▸ SEE PAGE 151

3095 0553	Stainless Steel Hose Clamp	

Insulated Hot Water Spray Nozzle

For use with garden hoses.

- Made of durable stainless steel with molded urethane handle.
- Recommended for use with water up to 180 °F (79 °C).
- Handle remains cool during operation.
- Water flow rate thru nozzle is 4 gpm at 40 psi.

ADAPTER INCLUDED! Ready to connect to standard male GHT.

INCLUDES 15° V-Jet 1/4-inch nozzle tip. Order 25° nozzle tip separately.

1/4 turn-off valve minimizes hand fatigue.

2900 4014	Insulated Spray Nozzle, Includes 15° Nozzle Tip	EACH
2900 15601	Replacement 15° Nozzle Tip	
2900 25501	Optional 25° Nozzle Tip	

Hose Adapters and Accessories

Swivel adapters allow the nozzle to rotate separately from the hose. Swivel adapters also prevent hoses from getting twisted and tangled.

GHT	Garden Hose Thread
NPT	National Pipe Thread
FPT	Female Pipe Thread
MPT	Male Pipe Thread
MNPT	Male National Pipe Thread

All adapters include a trigger lock.

Hot Water Packinghouse Hose

Multiple textile spirals reinforces hose and extends hose life. FREE WITH THIS HOSE — rubber insulators that keep the hose cool to the touch.

- Couplings are securely attached to each end of the hose with no sharp edges and are covered by a heavy-duty reinforcement insulator to prevent failure at the base of the hose and to keep the ends cool to the touch.
- Hose assemblies are pre coupled with garden hose couplings on each end. • Withstands 500 psi.
- Withstands temperatures up to 212 °F. • Highly-resistant to cuts and abrasions.
- Available in 3/4 inch ID and 1/2 inch ID.

FREE rubber insulator keeps hose cool to the touch.

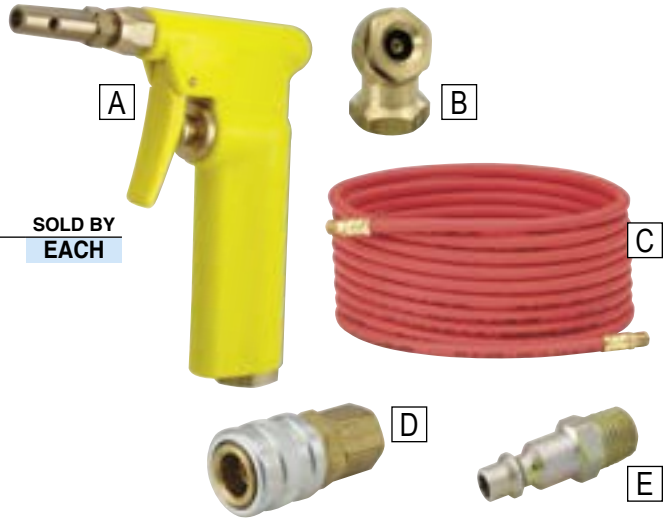

Double braided nylon reinforced.

3-Gallon Pump-Up Foamer

A portable foam applicator for applying foaming chemicals to any surface

- Creates rich, clinging foam that adheres to surfaces longer to maximize chemical effectiveness.
- Projects the ideal amount of foam for small or large jobs requiring maximum portability.
- Fill the tank with ready-to-use chemical solution, pump it up and foam.
- Use the "quick change" valve to pressurize with an air compressor instead of pumping (must disconnect airline during operation).
- Heavy-duty, easy-grip trigger gun with locking latch.
- Wide fan pattern nozzle for fast application.
- Stainless steel nozzle, 1/4 inch.
- Requirements: Ready-to-use chemical solution. Temperature up to 120 °F. Accepts compressed air up to 45 PSI.

Includes:

- Heavy-Duty 3-Gallon Polyethylene Tank with UV Inhibitor
- Tank Stabilizing Base
- Heavy-Duty Manual Pump
- Viton/Nitrile Seals and O-Rings
- Tube of Silicone Grease
- Pressure Relief Valve
- Compressed Air "Quick Charge" Valve
- Machined Foamer Body
- 6-foot Discharge Hose
- Heavy-Duty Trigger Gun with Viton Internal Seals
- Polypropylene 10" Wand and Stainless Steel Fan Nozzle

NSF "E" CATEGORY CODES

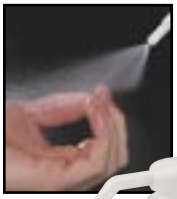

Good Manufacturing Practices dictate that these products are to be located a sufficient distance from the processing line and placed in satisfactory dispensers to preclude accidental food product contamination.

CODE		
E1	Handwashing Products	• Approved for use throughout the plant. • After use, hands must be thoroughly rinsed with potable water. • Hands need not be washed prior to using. • Use with PURELL® E3 Rated Instant Hand Sanitizer prior to handling food.
E2	One-Step Handwashing and Sanitizing Products	• Approved for use throughout the plant. • Approved for hand/food contact after handwashing. • Hands need not be washed prior to using. • After use, hands must be thoroughly rinsed with potable water.
E3	Hand Sanitizing Products	• Approved for use throughout the plant. • Approved for hand/food contact after handwashing. • Hands must be washed and thoroughly rinsed prior to using. • Hands need not be rinsed with potable water following use. • For use in combination with GOJO® E2 Foam Handwash.
E4	Hand Creams, Lotions and Cleansers	• Use in federally inspected meat and poultry plants is limited to: toilets, dressing rooms and non-processing areas. • Employees who process inspected meat, fish and poultry products should use only when leaving the plant.

Alpet E3 Plus Waterless Hand Sanitizer

Reduces bacteria on hands or gloves when used as directed. Meets all current FDA requirements for hand sanitizers in food handling environments.

- Approved E3 alcohol rinse sanitizer allows worker to directly touch meat after use.
- Formulated with emollients to soften and improve skin condition.
- Kills 99.9999% (LOG6) of 26 tested pathogens in 15 seconds (including Staphylococcus Aureus, Listeria monocytogenes, Escherichia coli, E. coli O157:H7 and more).
- Meets HACCP guidelines for consistent measurable results.
- Reduces the risk of cross contamination. • Kosher certified.

ATOMIZATION - The CDC says that 40% to 50% of pathogens on the hands are on the nails and cuticles, where most hand washing misses. Atomized sanitizers saturate the nails and cuticles, with a consistent amount of sanitizer each time it is used.

ALPET E3+ Hand Sanitizer Spray

Foot And Knee Pedal Valves

Certified NSF/ANSI 372 low-lead and NSF/ANSI Standard 2 Food Equipment.

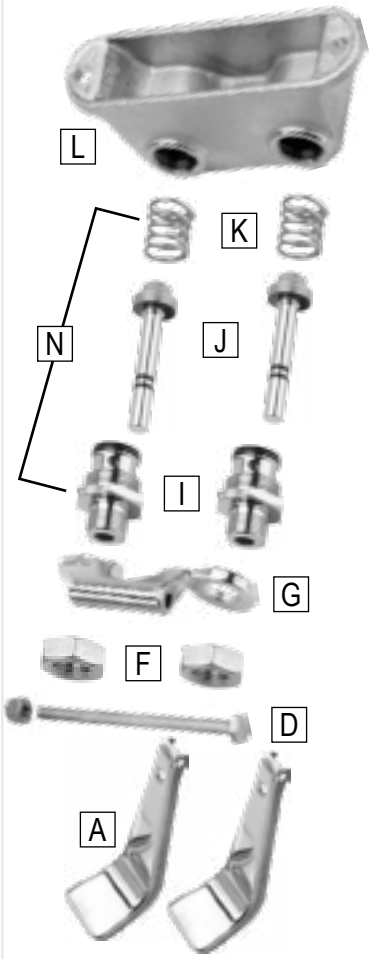

SANI-LAV COLUMBIA PRODUCTS

- Start and stop the flow of water "hands-free" by pressing a foot or knee pedal to start the flow of water and release to stop the flow.
- Ideal for use in the food service industries. • Cast brass with stainless steel springs, pedals, bolts and nuts.
- Self-closing foot-operated valves eliminate the possibility of contamination from germ laden or dirty faucets.
- All valves are tested at 150 psi after assembly. • Lift-up pedals make for easy cleaning.

ChillTote™ Trays

- ChillTotes™ fit four-up on standard 42-inch x 48-inch pallets.
- Light-weight freezer proof, stackable/nestable and easy to clean.
- Flow-thru basket design allows maximum air circulation for faster, more efficient freezing.
- Heavy ribs on bottoms of trays prevent the contents of upper and lower trays from freezing together.
- Injection molded from high-density polyethylene to withstand constant freezer temperatures without cracking or warping.
- Capacity: Standard: 1.4 cubic feet, 50 pounds.; Deep: 2.9 cubic feet, 75 pounds.

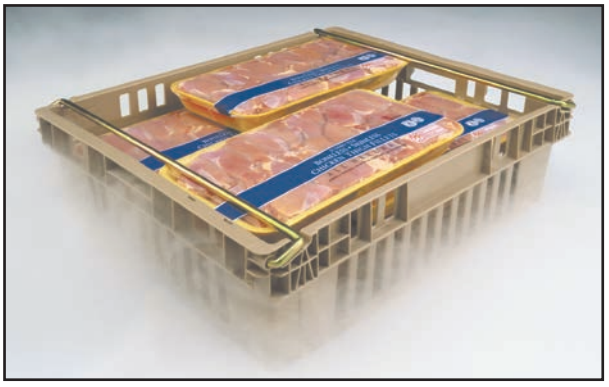

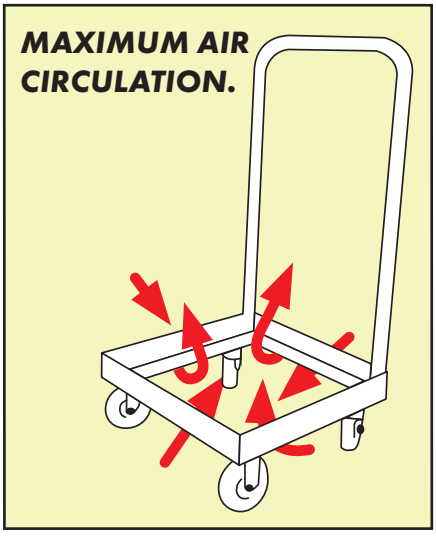

Two 3/8 inch zinc-plated steel wire bails swing down to allow nesting and swing up for stacking.

NOTE: Maximize your freezer space and eliminate basket shelving by using ChillTote™ aluminum transport dollies. SEE BELOW.

Super Pan V® Steam Table Pans

MADE IN USA

NSF

- Pans are constructed of 22-gauge stainless steel to resist rust and corrosion.
- Reinforcer® corners won't bend and will withstand more impact than ordinary pans.
- Coved corners make scooping easier and allow for easy clean-up.
- Anti-jamming design keeps pans from sticking together when stored.
- Flat edges keep pans tight in steam table well to seal in heat.
- Optional covers have reinforced edges and fit securely to prevent spills during transport.

FOR FOOD SLICER AND GRINDERS

Retractable Shelf, Side Load Cart

MADE IN USA

Locking casters keep the cart completely still when needed.

- Retractable shelf can hold 18-inch x 26-inch or 9-inch x 26-inch platters or pans.
- Top has built-in center I-beam constructed of 1-1/2-inch square wall tubing for extra support.
- Holds up to 6 platters (sold separately).
- Base construction: 1-1/2 square x 0.07-inch wall tubing.
- Top framework construction: 1-1/2 square x 0.07-inch wall tubing.
- Angle runner construction: 1-1/4-inch x 1-5/8-inch x 0.1-inch angle.
- The top and retractable shelf are constructed of 16-gauge stainless steel.
- Shipping weight: 58 pounds.

Includes four, 5-inch platform-type, total-locking, swivel casters with sealed bearings.

Easy glide angle runners make sliding platters in and out an easy task.

Casters have total locking capabilities, making this unit completely rigid and non-moving when needed.

NOTE: Platters and food slicer sold separately.

ProSave™ Ingredient System

Increase productivity, improve food safety and decrease supply costs.

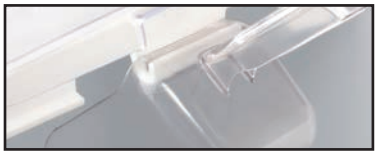

MADE IN USA

KNOCKS DOWN FOR SHIPPING

- Scoop hook allows the scoop to be stored inside the bin and out of the product for quick access to each ingredient.
- By holding the scoop handle and securing it to the hook, hands do not touch the ingredients and the risk of cross-contamination is decreased.
- Integrated sliding lid for one handed access.
- See-thru lid slides along easy-glide track, to open.
- Assists in complying with FDA Food Code 30304.12.
- First in, first out (FIFO) fill compartment.

Scoop hook to make scoop easily accessible.

Scoop handle is held out of ingredient bin preventing cross-contamination.

Snap fit secures to base to make handling easier.

3-inch casters.

A

B

Rotating clear lid fits on 10-, 20-, or 32-gallon round containers (sold separately).

C

D

Scoop included and is easily stored inside. 10-gallon lid includes 2-cup scoop. 20-gallon lid includes 3-cup scoop. 32-gallon lid includes 4-cup scoop.

Heavy-Duty Platform Trucks

Ideal for moving large, heavy, oversized loads in a variety of environments.

MADE IN USA

- Exclusive, precision-engineered resin and metal composite structure provides maximum load support.
- Non-marking polyolefin casters are impact and chemical resistant and won't flat-spot under static loads.
- Powder-coated steel creates a hard finish that is tougher than conventional paint. • Textured deck surface reduces load slippage.
- Perimeter deck channel retains small items. • Variable grip-height improves control and worker safety.
- Retainer clips prevent unintended handle removal.

MACX™ Storage System

The durability and versatility of steel for the cost of plastic.

• Light-weight • Strong • Durable • Stackable

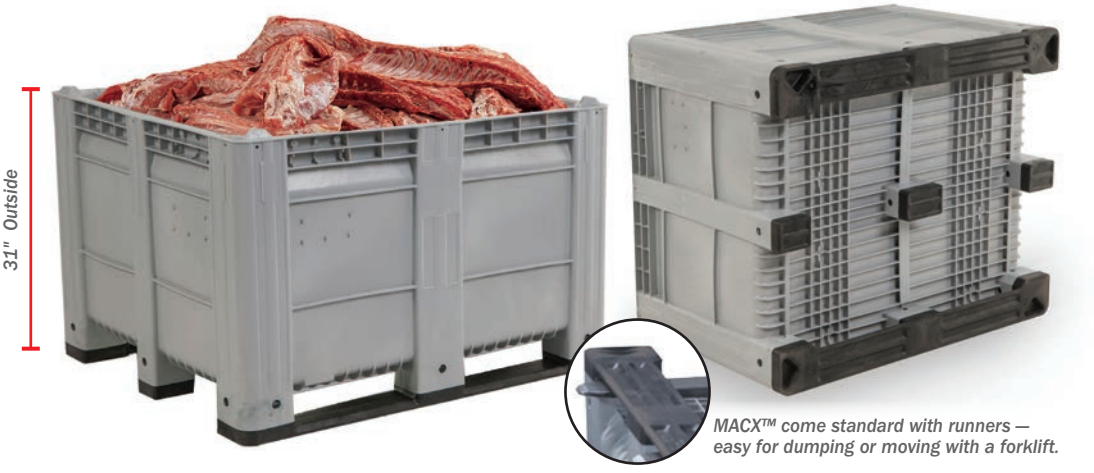

MADE IN USA

Standard MACX™ Bins

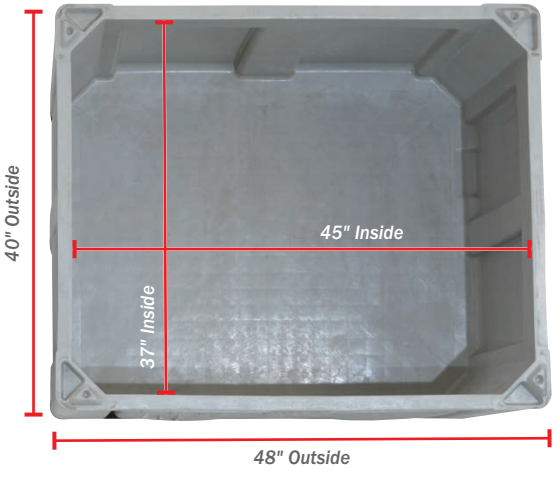

Light-weight, yet strong enough to hold 1,500 pounds of product.

- One-piece, injection molded construction. • 25.4 cubic feet; 190 US gallons.
- Made from high-density, food-grade structural plastic with a service life comparable to steel.
- Will not warp, dent, chip, splinter, rot or rust and are chemical and corrosion-resistant.
- Withstands temperatures from -32 °F to 165 °F. • Capacity: single bin, unstacked, static weight of 1,500 pounds.
- Completely sanitary: can be high-pressure washed and steam sterilized. • Shipping weight: 89 pounds.
- Drain and cap are available for liquid applications. • 48 inch x 40 inch standard pallet footprint.

NOTE: Customizable: add casters, drain plugs, label holders, drop doors, attachable lids, custom colors and even emboss your company logo on the side. CALL FOR MORE INFORMATION.

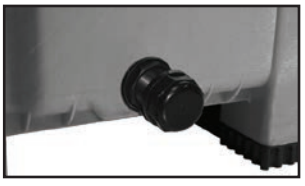

MACX™ come standard with runners — easy for dumping or moving with a forklift.

THE SECRET Behind the Strength

- 3-wire truss all-welded design makes it a dozen times stronger than a solid steel truss of the same weight.

EASY, NO-TOOLS ASSEMBLY!

- Screw the post together, snap the sleeve onto the desired indexing groove and drop the shelf's collar over it.
- Numbered posts for easy assembly.
- Adjust shelves at 1 inch increments along the entire length of the post.
- Combine different depth shelves to jog around wall protrusions, run-around corners, etc.

- Connect multiple units together with our "S" clips for increased rigidity and storage space.

LEVELING IS A BREEZE!

- Level with just a twist of the wrist.
- Adjust loaded shelves with an open-end wrench.
- For mobility, replace the levelers with a caster kit.
- Leveling bolt: 3/8" x 16 tpi.

CASTER KIT

Move your shelving easily by replacing levelers with casters. Each caster kit contains four, 5-inch casters (2 with locks and 2 without locks) and four easy-to-install adapter sleeves that better reinforce the legs of the shelving structure and allow the casters to fit securely over them. These unique sleeves keep the legs from bending on loads totaling **up to 500 pounds.**

Replacement Clips (for Poly Tables)

ITEM NO.	SIZE	SOLD BY
2990 3254	For 72" Tables	EACH

BUILD YOUR OWN STAINLESS STEEL WORK TABLE

1. Start with a "Rock Solid" stainless frame:

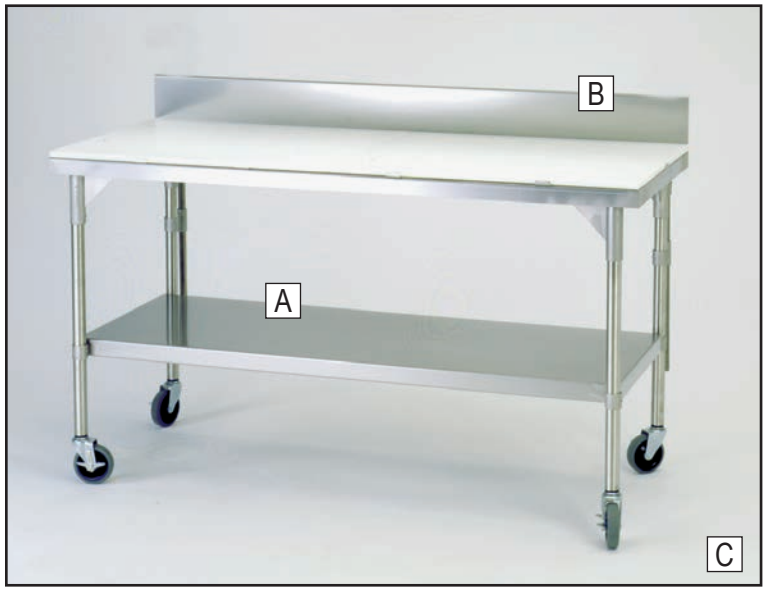

- Unique design yields a table which is remarkably rigid front-to-back and side-to-side, yet flexible along its length to twist to accommodate uneven floors. Even with a one inch block under one leg, all legs make solid contact with the floor and the table won't wobble or shake, (see inset). The key is the oversized, welded gussets. Legs are adjustable to level the table.
- Available in 72 or 96 inch lengths x 30 inches deep.

2. Choose from a split-poly or full stainless steel work top

- No tools needed to install either top. Stainless steel clips hold poly top in place. Or, remove the clips and install the full stainless top in minutes. To comply with USDA regulations, the poly top is only available as a two-piece unit.
- 96 inches L x 30 inches D x 34 inches H.

3. Customize to suit your specific needs:

- Stainless Steel Shelf Kit. • Stainless Steel Backsplash. • Caster Kit.

A. Lower Stainless Shelf Kits

Fully adjustable stainless steel shelf. Shelf removes easily from clips for washdown, no tools needed.

F.O.B. FACTORY

ITEM NO.	SIZE	SHIPPING WT.	SOLD BY
2990 3250	For 72" Tables	40 lb	EACH

HOW TO CALCULATE REPLACEMENT CUTTING BOARDS

1. Measure length and width in inches.
2. Multiply length x width for total square inches.
3. Divide total square inches by 144.
4. Round calculation up to the nearest foot.
5. Take that number x price per square foot.

L x W = Total Square Inches

Example:

1. Board desired is 13 inches W x 76 inches L.
2. 13 inches x 76 inches = 988 square feet.
3. 988 divided by 144 = 6.86
4. Round 6.86 up to nearest foot = 7
5. Take 7 x price of board per square foot = Total price

We recommend boards no larger than 18 inches W x 5 feet L, removable for cleaning by a single worker.

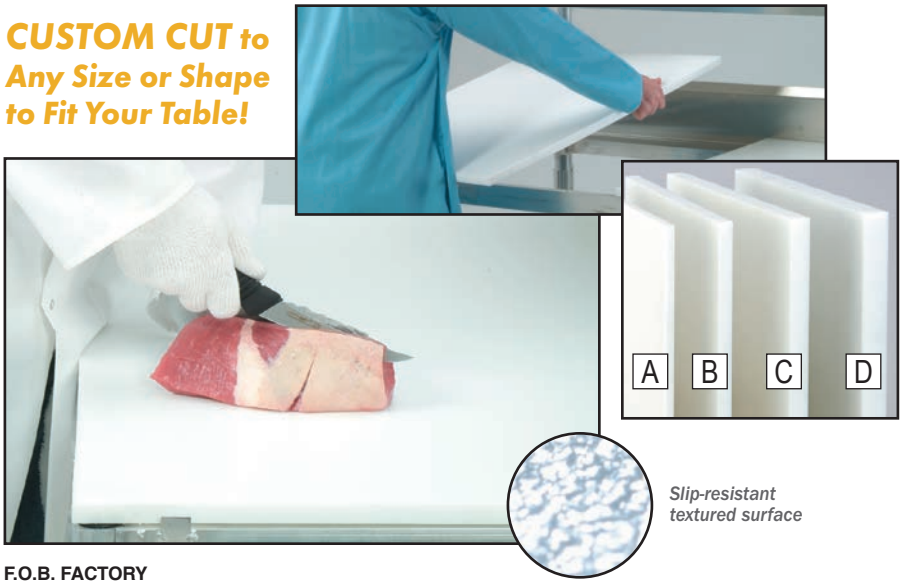

Sanatec® Poly Cutting Board Table Tops

An economical alternative to wood surfaces.

NO RETURN

- Made of sanitary polyethylene with a reversible slip-resistant pebble finish that won't dull knives.
- Surface will not absorb odors – clean with soap and water.
- Select from four thicknesses, sold per square foot.

CUSTOM CUT to Any Size or Shape to Fit Your Table!

Heavy-Duty Plate Style Casters

- Swivel Casters — Formed legs are continuously welded, 1/4-inch steel top plate is cold forged and heat treated to relieve stress and add strength.
- Main Load Bearing — Fully hardened ball bearings in a hardened raceway.
- Thrust Bearing — Large diameter hardened ball bearings roll freely in a hardened raceway.
- Lube Fittings — Provided for both swivel and wheel bearings (for rubber wheels only).

- King Pin coined and stress relieved — Holds raceways precisely in alignment.
- Finish — Corrosion-resistant zinc. • 3/8-inch attached bolt.

Polyurethane on Polyolefin Wheels

- Offers the same long wearing tread characteristics as polyurethane on steel or aluminum cores.
- Well suited for wet environments with delrin bearings.
- Resists chemicals, caustics, acids and oils.
- Composed of polyurethane tread mechanically and chemically bonded to a polyolefin core.
- Quiet rolling yet good load capacity.
- Temperature range: -40 °F to 180 °F.
- Not to be used where possibility for shock or high-impact exists.

Sqwincher is one of the most cost-effective ways of increasing productivity, while helping lower the number of workplace accidents. Just like hard-working machinery, bodies need fuel. And to ensure peak performance, your employees need fuel that works as hard as they do, with a taste that keeps them revved up for more. Research shows that a high number of work-related accidents are attributed to "bad judgment" or failure of safety equipment, when, in fact, heat stress and fatigue may actually be the cause. Stop heat stress before it starts.

Sqwincher is focused on the INDUSTRIAL ATHLETE who is performing in extreme conditions for 8-12 hours, 5 to 7 days a week. Contains 50% less sodium and 50% more potassium than other sports drinks.

MAXIMIZE EMPLOYEE PRODUCTIVITY in Hot Environments.

FitCheck Solo

Test the attenuation of any type of earplugs or insert hearing protector with FitCheck Solo.

- Provides test results that are representative of ANSI S12.6- 2016, which is the 'gold standard' for hearing protector attenuation measurements.
- Test from 3 to 7 frequencies to generate a Personal Attenuation Report (PAR) – an attenuation calculation that can be compared to the earplug's NRR.
- Simply plug the FitCheck Solo headphone's 3.5 mm plug into any PC and run the FitCheck Solo application.
- Convenient file storage options and reporting capabilities.
- Software is easy to use and is compatible with Windows XP 7/8/10.
- Based on NIOSH WellFit program.
- FitCheck Solo is the ONLY Field Attenuation Estimation System (FAES) that does not require external hardware – no communication errors, power supplies or cabling requirements.

TRAINING AND FIT TESTING TAKES LESS THAN 10 MINUTES.

! WARNING on 3M/EAR™ Hearing Protection: These hearing protectors help reduce exposure to hazardous noise and other loud sounds. Misuse or failure to wear hearing protectors at all times you are exposed to noise may result in hearing loss or injury. For proper use, see supervisor, User Instructions, or call 3M in the USA at 1-800-243-4630. In Canada, call Technical Service at 1-800-267-4414. If there is any drainage from your ear or you have an ear infection, consult with your physician before wearing ear plugs. Failure to do so may result in hearing loss or injury. * Research suggests that many users will receive less noise reduction than indicated by the NRR due to variation in earplug fit and wearing time. It is recommended that the NRR be reduced by 50% for estimating the average amount of noise reduction provided.

CHOOSING A RESPIRATOR

Check the SDS for your substance to select the appropriate respirator, one must know the contaminants from which they need protection.

Details on various substances can usually be found on the SDS if the contaminant is a raw material used in production. If the contaminant is some type of by-product of a work process, more extensive investigation as to what the contaminant is composed of may be required. Once the contaminant has been identified, it is necessary to determine its concentration by performing air sampling in the work area.

Some other factors to take into account when choosing a respirator are the length of time the worker is exposed to the contaminants, specific conditions at the workplace, whether the workplace is indoors or outdoors, other types of personal protective equipment that is being used and whether chemical exposures may occur at the workplace.

Taking these findings into account, there are two types of respirators from which to choose, with many types of cartridges and filters that are used to block various gases and/or chemicals. These cartridges fit both half mask and full face piece type respirators. The half-mask respirator follows the contours of your face and fits over your nose and under your chin. It grants you a wider field of vision than a full face piece respirator and allows you to wear most types of eyewear along with the mask. Full face piece respirators fit under your chin and over your head and provide the same protection as a half-mask respirator. However, a full face piece respirator protects your eyes and face from airborne particles, chemicals and gases that could damage a worker's eyes.

RESISTANCE TO DEGRADATION		FILTER EFFICIENCY LEVELS		
		95%	99%	100%*
N	**Non-Oil** Solid particulates and non-oil aerosols that do not degrade filter performance.	N95	N99	N100
R	**Oil-Resistant** Solid particulates and degrading oil based aerosols. 8 hour use limitation.	R95	R99	R100
P	**Oil-Proof** Solid particulates and oil based aerosols. No use limitations.	P95	P99	P100

*Actual filter efficiency level is 99.97%.

! WARNING on 3M Respiratory Protection: These respirators help reduce exposure to certain airborne contaminants. Before use, the wearer must read and understand the USER Instructions provided as a part of the product packaging. A written respiratory protection program must be implemented meeting all the requirements of OSHA 1910-134 including training, fit testing and medical evaluation. In Canada, CSA standards Z94.4 requirements must be met and/or requirements of the applicable jurisdiction, as appropriate. Misuse may result in sickness or death. For proper use, see packaging instructions, supervisor, or call 3M OH&ESD Technical Service in USA at 1-800-243-4630 and in Canada at 1-800-267-4414.

WorkHorse® Color-Coded A8 Cut-Resistant Gloves

Prevent cross-contamination with nine different color-coded, FDA-compliant cut-resistant gloves.

- Cut level A8 protects hands from cuts and lacerations.
- Meets USDA food-handling requirements.
- 13-Gauge thread count for the utmost in cut-glove comfort.
- Machine washable.
- Antimicrobial fiber.
- Constructed of spun threads with fully encapsulated glass fibers and stainless steel.
- Ambidextrous.
- Standard length cuff.

In the food processing industry 70% OF WORKERS who suffered hand injuries were NOT wearing protective gloves.

Indirect costs can include LOST WORKER PRODUCTIVITY (potentially running into the 10's of thousands of dollars), cost of training replacement employees, damage to workers' morale and COMPANY REPUTATION.

The average hand injury bill EXCEEDS $6,000, with each workers' compensation claim reaching $7,500.

Cut-Resistant Glove can be worn on knife hand, when a metal mesh glove is used.
Cut-Resistant Glove can be worn on non-knife hand, when a metal mesh glove is not used.

NOTE: These gloves are sold individually, NOT as a pair.

WARNING: These gloves are cut-resistant but not cut proof or puncture proof. Do not subject to moving or highly serrated blades.

Deboning Cut-Resistant Glove

A blend of ultra high performance fibers and steel to help protect against the cuts and lacerations common in food processing.

- Reinforced with an additional barrier of cut-resistant knit in areas of the hand at highest risk of cuts and slashes.
- Antimicrobial fibers are food safe and help to prevent odors and bacterial growth for longer wear between laundering.
- Gloves stand up to multiple wear cycles with proper laundering, using moderate temperatures (up to 160° F) in washing and drying.
- Compliant with FDA 21 CFR 177.2800. Approved for direct food contact.
- Provides ANSI A6 cut resistance throughout the base of the glove, reinforced to ANSI 9 in high-risk zones, with ANSI Level 4 abrasion resistance for enhanced durability.

Cuff edge color indicates size.

WorkHorse® Stainless Steel Metal Mesh Gloves with Spring Closure

Durable stainless steel strap is bacteria-resistant and won't rust.

- Reversible design fits both left and right hand workers.
- Color coded stiffeners for easy size identification.
- Reversible gloves are tapered to contour to the shape of the hand for a comfortable fit.
- High tensile stainless steel ring construction is four ring joined, even at the seams to help prevent dangerous knife sticks, cuts, slashes and lacerations.
- Gloves D, E and F have a lighter, coiled spring closure instead of the standard magazine spring closure found on A, B and C - making it a more comfortable and durable spring closure option.
- Sealed strap for a clean, comfortable and secure fit, no loose clips or fasteners to snag.
- 3-inch extended and 7-1/2-inch elbow lengths have added claw hook closure at wrist.

Individually welded stainless steel links.

YOUR FROSTS® KNIFE BECOMES A NATURAL PART OF YOUR PROFESSION AND YOUR WORKDAY.

Frosts® MORA

Knives For Professional Users Since 1891

NSF

Frosts' factory is located in Mora, Sweden – just as it was a century ago. This is where they manufacture all of their knives using a combination of craftsmen skills and modern technology. Design, materials and ISO 14001 certified green methods are all constantly refined by staff who have inherited generations of professional knowledge. This can be seen in their long tradition of making top quality knives for the food industry.

The carefully selected steel enables their knives to be sharpened to an extreme edge and sharpness that lasts. The handles are ergonomically designed allowing work to be done with force, precision and in a controlled manner. This reduces the risk for work and repetitive strain injuries.

The consistent, high-quality of Mora knives enables users to receive a great deal of benefit and joy from them over a long period of time.

Hygiene and Long Life

Frosts' food industry knives are made according to the legislation and regulations on safe and hygienic handling of foods. The knives are manufactured with a seamless connection for the blade and handle core. High friction handle surface resists wear and is easy to clean and maintain.

FROST FLEX INDEX

Carefully selected steel enables knives to be sharpened to an extreme edge and sharpness that lasts.

ERGONOMIC HANDLES

The handles are ergonomically designed allowing work to be done with force, precision and in a controlled manner. This reduces the risk for work and repetitive strain injuries.

Blades made of Swedish stainless knife steel. Hardness: 58 HRC. Easy to sharpen. Recommended for pork and lamb processing.			Blades made of Swedish stainless knife steel. Hardness: 58 HRC. Easy to sharpen. Recommended for beef processing.				

Straight Boning Knives

- High-carbon, no-stain steel gives the best service and life.
- Blade memory allows knife blade to return to its original position when it bends or twists during the cutting process.
- Ingrained pattern in the handle improves friction when knife is wet or greasy.
- Boning knives are designed for both diagonal and dagger positions – eliminating the need to shift the grip on the knife.

Dexter® Prodex Knives

- Durable handles offer a unique texture and pronounced finger guard for a safe, anti-slip grip.
- Handle shape, materials and reverse hook finger guard virtually eliminate injuries due to slippages while remaining comfortable in all gripping positions.
- Anti-slip material eliminates fat barrier between hand and handle, thus reducing gripping pressure and fatigue.

Granton® Edge

Patented ground scallops are the secret to the Granton® advantage.

Granton® Edge knives use an innovative fluted edge that creates air cushions which allow for very smooth, fast cutting.

Granton® blades are made from fully hardened and tempered Sheffield stainless steel.

Granton® Handles are double-tapered and ergonomically angled. For added comfort, the thumb platform is contoured and the blade back is rounded.

Developed by Granton® over 50 years ago, the Granton® Edge is a superb razor sharp cutting edge that can be re-sharpened on a steel in the usual way.

Granton® Plain Edge Knives

HACCP CERTIFIED

• Color-coded handles. • Premium stainless steel blade.

• Hygienic polypropylene co-polymer handle. • Safety guard.

Double-Bladed Knife

Ideal knife for cutting along poultry keel bones.

- Simply remove the screw and the double-bladed knife becomes two separate knives with handles — allowing for easy sharpening.
- Optional dual edge sharpener allows both blade edges to be sharpened simultaneously.

NOTE: Steel and table-mount sharpener both sold separately.

Sharpen with steel of choice or optional table-mount sharpener.

ITEM NO.	PRODUCT	SOLD BY

3-Way Knife Sharpener

DEXTER

Features three, 12-inch ceramic rods, each with a different coarseness, to improve the blade's edge. The 3-way flips over to give you the appropriate coarseness for the job.

- To keep a sharp knife sharp, use only the white rod. • No oil or water necessary when sharpening. • Ceramic rods improve with use.
- For a dull or worn edge, use the brown rod and final hone with the white rod.
- For partially dull edge, use the gray rod and final hone with the white rod.

EV05 Knife Sharpening Machine

KNECHT.

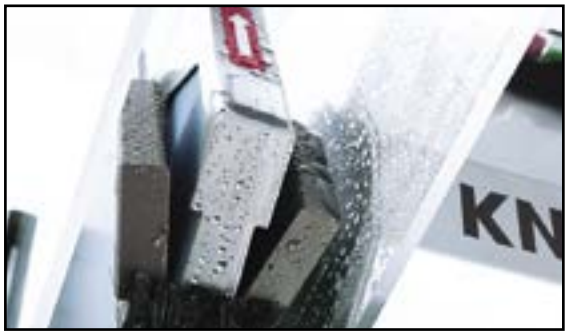

Robust and reliable for sharpening a wide variety of cutting tools.

- Grinding angle is adjustable from 20° to 50°.
- Magnetic knife guides ensure that knives are always ground with the correct cutting edge angle.
- The polishing disk produces fine, polished surfaces and a burr-free, very smooth cutting edge.
- Dirt-resistant membrane pump conveys the cooling water to the grinding unit. The cutting edges cannot be overheated during grinding. The grinding abrasion collects in the water tray. A magnetic bar separates the dirty area from the clean area preventing the grinding abrasion from re-entering the coolant circuit.

Sharpen knives on wet grinding wheel at any angle.

Deburr and polish.

Water tray into dirty and clear areas by magnetic bar.

Magnetic bar collects dirty abrasion in water tray.

Dirt tray with suction socket, use to connect to vacuum.

X-Tra Edge Sharpener

Grind and hone on the same machine.

- Sharpener is now belt driven for a smooth, quiet performance.
- Sharpens on left side — hones/polishes on right side.
- Dry grinder wheels are fully adjustable. • All operations performed dry.
- Accepts any length knife. • Easy-to-service, simply turn stones for even wear.
- Aluminum housing with vibration absorbing rubber feet.
- Weight: 22 pounds. • 110 V 3-prong plug; 5-foot grounded power cord.

FREE pair of hollow grinding stones with each unit.

FREE Truing Stick with each unit.

ITEM NO.	PRODUCT	DIMENSIONS	SOLD BY
3363 9600	X-tra Edge Sharpener	16" x 8" x 8"	**EACH**
3363 9013	2 Replacement Sharpening Stones (100 Grit)		
3363 9014	2 Replacement Honing Stones (220 Grit)		

Commercial Power Sharpener

Unique double overlapping sharpening wheels assure edge angle accuracy.

- Stainless steel table stand, 2 extra drive belts, 1 belt tool with each unit and a 6-foot cord.
- Reduce sharpening time — both sides of blade are ground at same time.
- Extends life of knives by removing as little knife material as possible.
- Knife blade enclosure covers blade for safety during sharpening.
- Knife blade enclosure covers blade for safety during sharpening.
- Stainless Steel Housing: 12 inches L x 8 inches D x 5-1/2 inches H.

Ergo Grip vs. Standard Grip

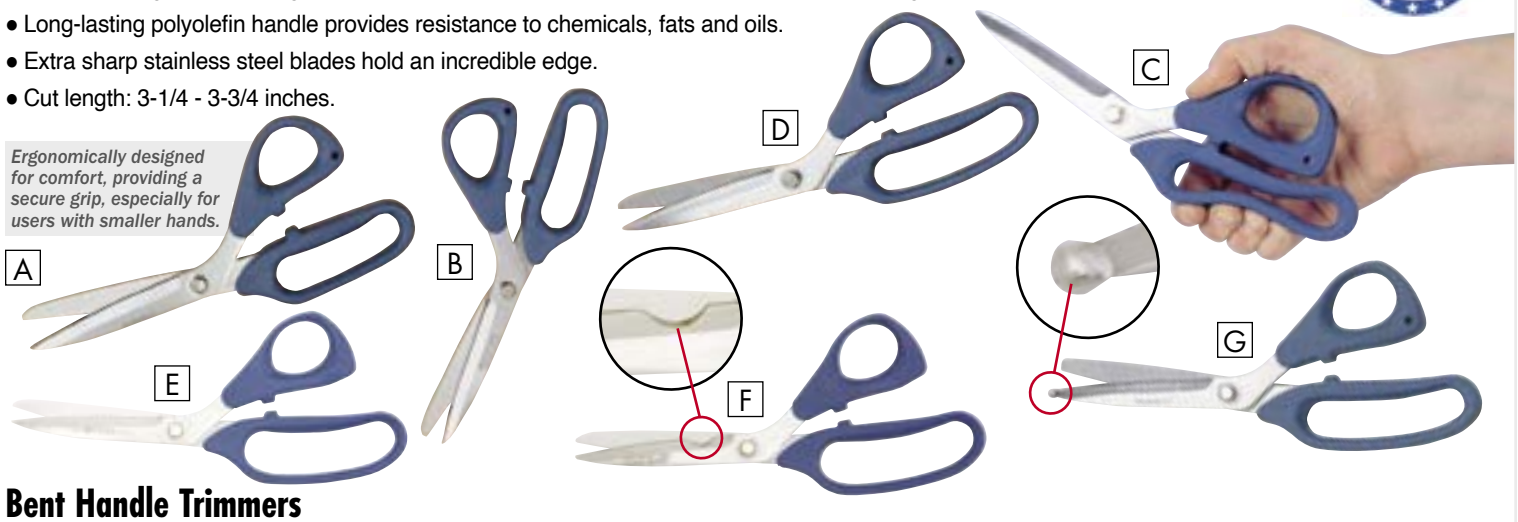

SoftHandle Shears

Soft, light-weight ergonomic handles.

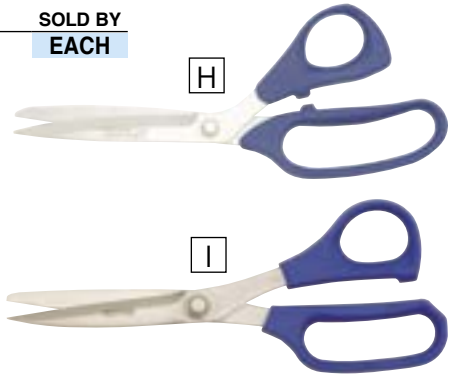

- Standard, large or extra large lower bows available. Excellent for applications that require gloves.
- Long-lasting polyolefin handle provides resistance to chemicals, fats and oils.
- Extra sharp stainless steel blades hold an incredible edge.
- Cut length: 3-1/4 - 3-3/4 inches.

Ergonomically designed for comfort, providing a secure grip, especially for users with smaller hands.

FOUR STEPS TO THE RIGHT SPECO™ GRINDER PLATE

1. Determine the plate size of your grinder.

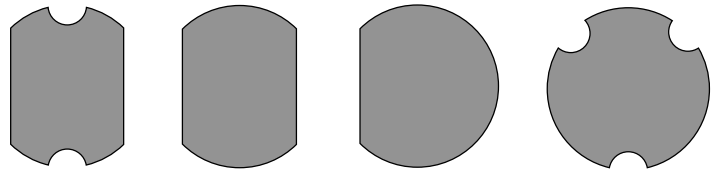

Measure the diameter of the grinder plate and match it up to the corresponding plate size below:

DIAMETER	2-3/4"	3-1/4"	3-15/16"
PLATE SIZE	#12	#22	#32

DIAMETER	5-1/8"	6"	8-5/8"
PLATE SIZE	#52	#56	#66

2. Identify grinder plate mounting style.

Look at your grinder plate and match up the face shape to one of the styles listed below:

Universal Style (Also works for Cleveland Style.) *Cleveland Style* *Toledo Style* *Enterprise Style*

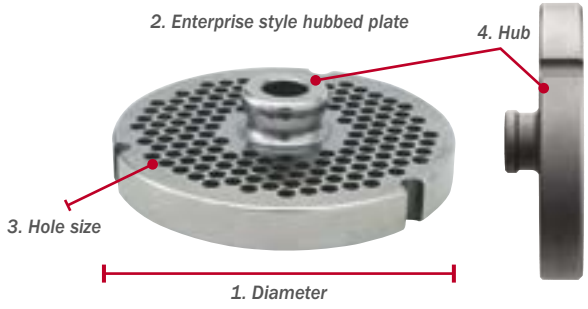

3. Determine hole size.

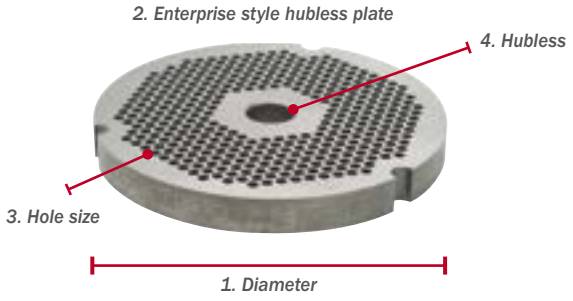

The hole sizes we are referring to are the holes that are cut into the top side of the grinder plate. Choose from the following sizes:

HOLE SIZE	1/8"	3/16"	1/4"	3/8"
HOLE SIZE	1/2"	3/4"	1"	

4. Hub or hubless plate?

Plates with a center hub are stronger and easier to remove from grinder. Hubless plates are reversible for extended wear.

Bone Collector System

Solid hub bone collector plates in the following sizes:

- Hole sizes: 3/32 inch, 1/8 inch, 5/32 inch and 3/16 inch.
- Plate diameters: 5-1/8 inch, 6 inch, 8-5/8 inch and 11 inch.
- Grinder sizes: 52, 56, 66 or 11.

NOTE: When ordering please specify the following: machine make and model, plate hole and size and plate mounting style.

1. Special design and construction permits a unique gullet tooth that removes waste and dust during cutting.
2. Enables the following tooth to cut uninterrupted and to ultimate capacity.
3. Steel composition offers wear resistance properties not available in competitive blades providing a longer life.

EdgeMaster™ Munkfors Premium Quality Bandsaw Blades

Quality:

- Committed personnel with long experience in inspecting and evaluating blade design, materials, construction and function.
- Only the best strip steel – meets or exceeds requirements for high strength, exceptional flatness and straightness, excellent weldability and tight tolerance levels.
- Stringent standards of production and quality control guided by ISO 14001.MUNKFORS leads the development of bandsaw blades in the meat, poultry, and fish processing industries.
- Unique manufacturing technology guarantees blades of the highest quality and longevity of performance.
- Quality EDGEMASTER™ MUNKFORS blades enable our customers to improve productivity and sharpen their competitive edge.
- Small part for big value – Bandsaw blades account for a small part of production costs, but are critical in maximizing the operating performance and product yield.
- Blades exceed standard running time — maximizing profit. •Ultra-sharp teeth of uniform geometry.
- Allows use of harder steel than in conventional manufacturing methods, which increase blade reliability and stability.

Advantages:

- Swedish steel. • Longer blade lifetime. • Sharper blades.
- Less waste. • Cleaner cutting. • Minimum downtime.

All blades are individually wrapped and coiled.

Scalloped Bandsaw Blades

EdgeMaster™

MADE IN USA

- Ideal for cutting fresh food products, as well as foam and rubber. NOT made for use with hard materials such as bone or frozen food products.
- Blades feature a fully sharpened scallop, 1/2 inch long or two scallops per inch.
- Constructed from 1075 series bright polished spring steel.

Tray Pack Blades for All Tray Pack Machines

Short lead times and high quality products at affordable prices.

- Single- and multi-lane tray pack blades are manufactured to the highest industry standards.
- Razor sharp tooth profile ensures quality cuts in even the most demanding of food packaging applications.
- Customize to suit unique shape and form requirements.

SPECIAL ORDER ITEM

REPLACEMENT* FOR ALL OF THE MAJOR OEM'S IN THE MODIFIED ATMOSPHERE PACKAGING MACHINE SECTOR, SUCH AS:

MULTIVAC BETTER PACKAGING

UltraSource®

REISER

HARPAK ULMA

ROSS®

G. MONDINI

SEALPAC®

VC999 PACKAGING SYSTEMS

AND MANY MORE!

Our Commitment to Humane Stunning

Bunzl Processor Division has established itself as the premier partner for humane handling in the food processing industry. Our commitment to this cause is unparalleled in the marketplace. We offer **FREE ON-SITE CONSULTATION** to assist customers in determining the right humane stunning equipment needs for each environment.

Chuck Bildstein

Humane Stunning and Equipment Specialist

Chuck has been recognized as one of the top influences in Humane Animal Handling. He has worked closely with Temple Grandin, Ph.D., in the area of humane stunning. He was a part of the AMI team that traveled to Washington DC to present at a congressional briefing on animal welfare and has lectured at various universities in the U.S. and Canada. We are proud to have Chuck on the BPD/Koch Supplies Team for almost 30 years.

Chuck can be contacted by dialing 319-573-6121 or by email at charles.bildstein@bunzlusa.com

Ryan Malone

MRO and Equipment Specialist

Ryan received experience in humane animal handling as assistant manager at the Kansas State University Meat Lab and graduated with a degree in animal science. He was also Meat Judging National Champion and All American at Fort Scott Community College. We are proud to have Ryan on the BPD/Koch Supplies Team for over 5 years.

Ryan can be contacted by dialing 816-820-7768 or by email at ryan.malone@bunzlusa.com

JARVIS®

MADE IN USA

PAS-PHDL 25R

.25 Caliber, HEAVY-DUTY LONG BOLT

PAS-PHDS 25R

.25 Caliber, HEAVY-DUTY STANDARD BOLT

- Ruggedly built for long service life.
- Simple to use, operate, and maintain.
- Diverse applications, from smaller to larger sized livestock.
- Renders animal insensible to pain before slaughter.
- Different cartridge strengths available, depending on usage.
- Comfortable, ergonomically, designed handle.
- Includes case and cleaning tools. • Type-PHDS – Standard length bolt.
- Type-PHDL – Longer length bolt for deeper skull penetration.

Concussion Head Assembly

- Uses a non-penetrating head to strike a powerful blow to the head of small animals for instantaneous euthanasia.
- Designed for small animals only, such as swine up to 60 pounds, turkeys of all sizes, chickens, rabbits, ducks, and geese.

JARVIS

Chuck Bildstein, BPD's Humane Stunning and Equipment Specialist, has had a working relationship with Dr. Temple Grandin for many years. You will find that much of the equipment mentioned in The Slaughter of Farmed Animals can be ordered and purchased from Bunzl Processor Division. As an example, Jarvis stunners are featured prominently in this book – proving once again that Jarvis and BPD offer what many consider to be the best line of stunners in the industry.

Jarvis Products Corporation is the world's largest producer of meat and poultry processing equipment.

- Made in the USA in Middletown, CT.
- Service — 26 Jarvis Field Service Technicians for in-plant service.
- Support — Expert advice (24 years of experience) for support, troubleshooting and training.
- Availability — Stunners, parts and power loads stocked in warehouses throughout the USA.

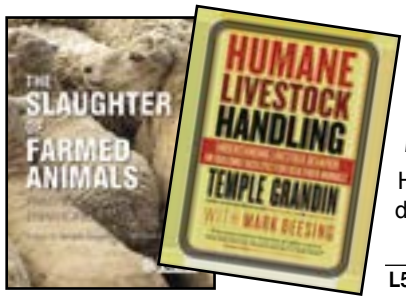

The Slaughter of Farmed Animals

Practical Ways of Enhancing Animal Welfare

Edited by Temple Grandin and Michael Cockram

This book provides a balance between evidence-based, scientific studies, and down to earth practical advice.

ITEM NO.	PRODUCT	SOLD BY

FAQ

HPS-1 Non-Penetrating Air-Powered Stunner

Non-penetrating euthanasia stunner for small livestock and poultry.

- Practical for use on small pigs, turkeys, rabbits, ostriches, fish, ducks, goats, sheep and geese.
- Can be used with either an easily changeable 12-ounce CO_2 cylinder (providing over 150 shots), portable high-pressure air tank or connected to an air compressor.
- Adjustable impact pressure handles different sizes of animals.
- Single trigger control makes for comfortable handling and operation.
- Light-weight, easy-to-clean and repair.

USSS-BBS Non-Penetrating Pneumatic Stunner

Unique design renders the stunned animal insensible to pain without penetrating the skull.

- The longer housing gives the rod 0.65 inches more free travel before it leaves the head contact.
- Easy to handle and operate for less operator fatigue and more accurate head contact.
- The air chamber is 1-1/2 inches longer giving 30% more available air when fired.
- Valve body is larger and has a larger valve which provides more air flow.
- Stunning rod has a larger 3-1/4-inch piston.
- One shot humane stunning procedure.
- Better stunning for improved meat quality.
- Easy to maintain, clean and repair.

USSS-21 Pneumatic Stunner

- Newly designed, lighter weight oblong shaped stunning rod for easier skull penetration and 15 to 20% faster bolt speed.
- More efficient, uses 25% less air with no performance loss.
- Two different firing sequences — less chance of activating stunner accidentally.
- Redesigned auxiliary handle that rotates to operator's preference.
- Easy to handle, repair, maintain, and clean.
- Improved ergonomic handle design for less operator fatigue, and controlling possible injuries.

KnockerVest™ with Detachable Groin Protector

Designed for body protection while using stunning equipment.

- 100% aramid ballistic package (type IIIA) backed with 1/2-inch closed-cell foam and inserted in a 1,000 denier Cordura carrier vest which is coated with a urethane film for even more water resistance.
- Water-resistant carrier vest meets the highest standards for soft body armor.
- Back of vest is made of a tough, breathable open nylon mesh that is made to withstand multiple washings.
- All fasteners are quick-release with adjustable straps and plastic buckles to ensure a great fit.
- Outer shell carrier units may be hand or machine washed with mild detergent and air dried.
- Groin protector and cover are both sold separately.

Breathable nylon mesh back.

Chest ballistics protection is easily removed to clean vest.

Easily detachable groin ballistics protection.

NOTE: No claim made or implied the KnockerVest™ can or will protect users from impact by a non-deforming projectile. KnockerVests will not resist pointed tools or knives. Read product specifications carefully before use.

1968 02311	8230010006. . .	35.2-46.3 pounds/16-21 kg

FOUR IMPORTANT STEPS TO DETERMINE WHICH BALANCER IS RIGHT FOR YOU:

1. Tool weight including accessories.
2. Balancer load range (best performance in mid to upper load range).
3. Travel (distance tool moves during operation).
4. Overhead space for balancer to hang.

Packers KROMER™ | INOX PRO® Zero Gravity Balancers

SER-04 Reciprocating Breaking Saws

The latest in breaking saw technology. Electrically powered reciprocating saw for production breaking and general purpose use.

JARVIS®

Complete saw shown here.

- Light-weight — 19 pounds for ultimate flexibility.
- This electric saw is suitable for use on beef, hogs, sheep and veal.
- 1.9 hp motor. • Blade Speed: 4,100 strokes per minute.
- Overall Length: 20-1/2 inches • Weight: 19 pounds. • Meets national and international requirements for hygiene and safety.
- 1 phase, 50/60 Hz. • Common applications include cutting forequarters, shank bones, primal cuts, aitch bones, brisket opening, and splitting.
- Double insulated. • Smoother more comfortable operation. • Ultra low vibration. • TEFC motor.
- Order 200mm, 300mm, or 400mm blades and supports separately.

Buster Carcass Splitting Bandsaws

The world leader in splitting technology.

Scan this QR code with your mobile device to see a Buster Bandsaw product video.

- Superior blade life.
- Electrically powered bandsaws for splitting cattle, bulls, oxen and pork.
- The largest Jarvis splitting saw; suited for the largest carcasses.
- Best possible hygiene — spoked wheels, flat surfaced housings and completely opening doors — for fast, easy, and complete cleaning.
- The drive system is oil bath lubricated for sustained trouble-free operation.
- Ultra-thin rail for unobstructed vision and dual rear handles for comfort.
- Anti-tie down controls and totally enclosed electric motor for operator safety.
- Meets national and international requirements for hygiene and safety.

JARVIS SERVICE TECHNICIANS ARE AVAILABLE TO PROVIDE FREE CUSTOMER SERVICE, INCLUDING EQUIPMENT INSTALLATION, SERVICE CALLS AND EMPLOYEE TRAINING. Call 800-456-5624 for details.

IDFI SWITCH ORDERING IDENTIFICATION GUIDE

A 1 R 4 U 25 1 Z 100 B 00 00

LENGTH OF EXTENSION Z
Give in 1 inch increments
(ex: 1 inch is 01, 17 inches is 17)

LENGTH OF EXTENSION Y
Give in 1 inch increments
(ex: 1 inch is 01, 17 inches is 17)

TYPE OF BRIDGE
B = Bolt On (Hangers on outside of curved rail only)
W = Weld On

BRIDGE HEIGHT (BOTTOM OF BEAM TO BOTTOM OF MEAT RAIL)
Range from 10 inches to 21 inches in 1/2 inch increments
(ex: 13-1/2 inches = 135, 13 inches = 130)

FINISH
Z = Zinc, **S** = Stainless, **B** = Black, **M** = SS Rail Zinc Frame

RAIL SIZE
1 = 2-1/2 inches, **2** = 3 inches

DISTANCE OF CURVED RAIL ELEVATION CHANGE
(ex: 1 inch = 10, 2-1/2 inches = 25)

CURVED RAIL GATE ELEVATION CHANGE
L = Level, **U** = Up, **D** = Down

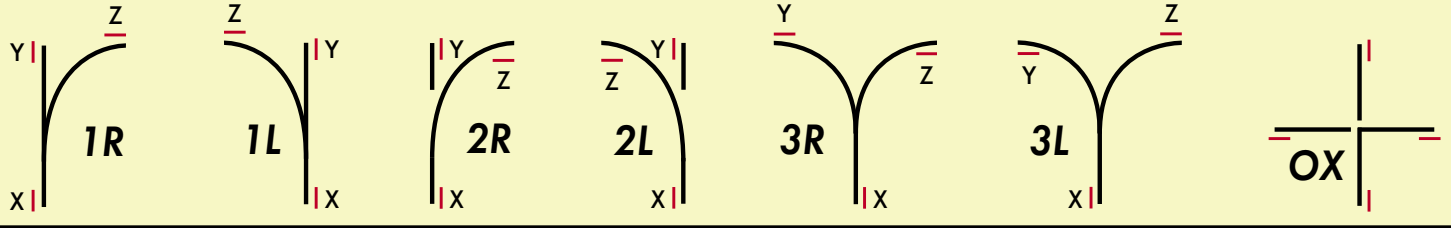

DEGREE OF CURVE
4 = 45°, **9** = 90°, **0** = Parallel with 10 inch offset

NOTE: Freight charges not included.

DIRECTION OF CURVE
R = Right, **L** = Left, **X** = Cut Through (only with prior selection of "C,O")

LOCATION OF HANGER IN RELATION TO CURVED RAIL
1 = Outside of Curved Rail, **2** = Inside of Curved Rail, **3** = Double Curve, **0** = Cut Through, **12** = 3-Way, **21** = 3-Way, **11** = 3-Way, **22** = 3-Way

SWITCH TYPE
A = Automatic, **D** = Divert, **S** = Single Gate Feed Out, **C** = Cut Through, **F** = Feed Out (non spring load auto-switch), **G** = Gear, **L** = 2nd Legger

Hercules™ Rail Switches

SPECIAL ORDER ITEM

Automatic Switches: 2,000/3,000 pound rating*

- Replacement Pin, Bushing and Shoulder Nut.
  - No more attempting to repair broken or bent bolts to correct angle.
  - Replacement Pin design assures proper angle and position every time.
  - Bushing and nut set spacing eliminates over tightening bolt issues.
  - Pin replacement, easy as replacing a bolt.
  - Pin and Bushing combination increases strength.
- Switching mechanism has fewer parts than the competition.
- Switching uses easier up and down motion to change gates — eliminates side-to-side motion to change gates.
- Heavy guards protect linkages against trolley damage.
- Stainless steel turnbuckle design on adjusting arm.

Divert Switches: 4,000 pound rating (Air or Hydraulic Options)

- Stronger one piece Cylinder Mounting Arm Bracket.
- New cleaner spring location.
- Stainless steel cylinders air or hydraulic.
- Gate design improves weight transfer throughout the entire switch.

Gear Switches: 2,000/3,000 pound rating*

- Offers lower gate travel path height reducing chain interference issues (patent pending design).
- Heavy-duty trolley stop (patent pending design).
- Heavier gear design.

NOTE: All switches are patent-pending designs.

*Automatic and Gear Switches carry a 2,000 pound rating when hung with hangers. Rating can increase to 3,000 pounds when welded off to a beam.

Rails:

- Rails are water jet cut using T1 steel which increases strength and improves wear resistance.
- Water jet cutting allows an increase in the amount of material under the gate pocket as well as accurate duplication of parts.
- HERCULES™ = 1-3/4 inches – Industry Standard = 1-1/4 inches.
- Heavier Gates – increased gate dimension due to cutting the parts out of plate steel instead of using standard 2-1/2" meat rail.
- HERCULES™ Gate 1-1/2 inches.
- Industry Standard Gate 1-1/4 inches.

Bridge/Uprights:

- 1 inch x 2-1/2 inch upright dimension.
- Uprights clock into rail for accurate line up and stronger welds — allowing weld on both sides of rail. The industry standard design uses a face weld on one side only.
- Bolt on bridge design matches up for true placement.
  - Wider bolt pattern increases strength.
  - Lower flange design places bolts below beam.
  - Flange design gives clean welding surface.

Parts:

- Parts repeatability achieved by water jet cutting, laser cutting and CNC machining.
- Easy-to-follow parts sheets only require basic switch information to order correct replacement parts.
- Off the shelf parts interchangeability means faster turn around and less down time.
- Precision parts require less time to change out parts and complete repairs done to units hanging in place.
- HERCULES™ Switches are made one design per style only, minimizing confusion and ordering errors.

Quoting and Ordering:

- Switch part number explanation sheet gives step-by-step guidelines to get all the necessary information when ordering switches.
- Ordering Identification Guide provides pictures to better identify switch style, type and dimensions.

Whole Units:

- Faster delivery times.
- HERCULES™ Switches are made to industry standard dimensions allowing use of existing hangers when replacing competitors switches.

VGK Oil-Free Rail Systems

The first and only oil-free trolley on the market.

Old-fashioned cast-iron trolleys and carbon steel rail cause black specks/rail dust that require oil, hazardous chemicals and wasteful, labor-intensive trimming. Most cast-iron trolley wheels wear out within months, while VGK wheels last for years and are cleaned with simple soap and water.

Additional benefits to the VGK Oil-Free Stainless Steel Trolley:

- No metal-to-metal contact wheel to rail. • Eliminates oil costs.
- Eliminates trimming labor and waste due to trolley contamination.
- Eliminates black specks, rail dust, oil drips. • Lasts years instead of months.
- Eliminates caustic cleaners used to derust trolleys, a hazardous waste.
- Consistent tare weight. • Meets USDA, FDA and FSIS guidelines.
- Calculated return on investment — 1 year ROI.
- Reliable carrier of information technology.

TRIM YOUR COSTS
CLEAN AND GREEN

How long do your cast iron wheels last?

This VGK wheel has been in continuous use for 12 YEARS and is still rolling strong!

Weasand Clips

- Constructed of FDA/EU-approved material. • Designed for quick and easy use. • Available by the case or in a cartridge.
- Clip breaks into small inert particles through most rendering systems. • Applied properly, there is no chance of ingesta leakage or clip slippage.
- Use of the cartridge with a dispenser eliminates clip cross contamination, speeds up access for line operator and reduces dropped and wasted clips.

1-Inch Lamb Weasand Clips

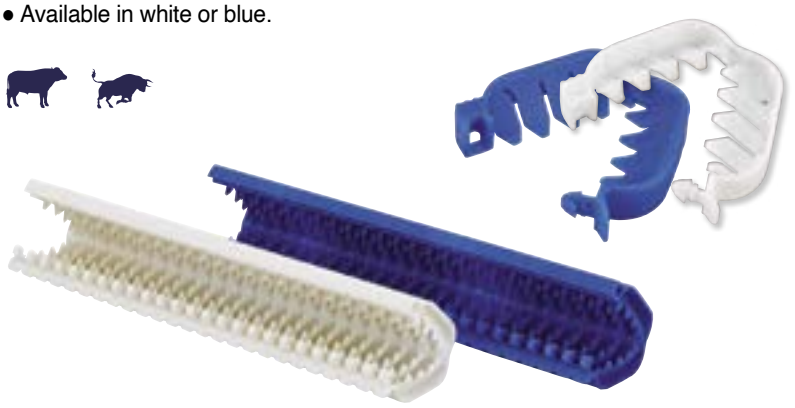

- Effective across a variety of species including calves, veal, goats, and venison.
- Cartridge dispensers help eliminate cross contamination.
- 25 clips per cartridge.

Hog Scraper Paddles

LONGWOOD

- Case hardened steel knives.
- Durable rubber cover is easy to clean.
- Bias cut fabric stretches to maintain contact between knives and carcass.
- Fabric reinforcement of compression section ensures durability for the life of the paddle.

NOTE: Attachment hardware sold separately.

A. 5-Star Paddles

- Rubber wedge for added stiffness — paddles last 4 to 5 times longer than conventional types.
- Substantially reduce machine downtime and replacement costs.
- 1/2-inch mounting holes, 2-1/2-inch mounting hole distance.

ITEM NO.	PRODUCT	SIZE	SOLD BY
3939 0001	5-Star Paddle, 3 Cleat	4" x 9"	EACH

B. 7-Star Paddles

- Heavy 5-ply fabric wedge increases stiffness and durability — paddles last up to 10 times longer than conventional types.
- 1/2-inch mounting holes, 2-1/2-inch mounting hole distance.
- Handle hogs up to 550 pounds.
- Work fast and clean, even during "hard hair" season.

ITEM NO.	PRODUCT	SIZE	SOLD BY
3939 00171	7-Star Paddle, 3 Cleat	4" x 9"	EACH
3939 9015	7-Star Paddle, 5 Cleat	4" x 9"	

C. PremiumStar® Paddles

Research and in-plant testing have proven that this is the paddle to use in high-impact areas for the most punishing of applications.

- Constructed of super-strong material compound to improve performance and provide longer life and lower maintenance.
- Paddles retain their operating stiffness — won't bow after a few days.
- Includes steel bushings.
- 1/2-inch mounting holes, 2.44-inch mounting hole distance.

ITEM NO.	PRODUCT	SIZE	SOLD BY
3939 10031	PremiumStar® Paddle, 3 Cleat	4" x 9"	EACH

D. Attachment Hardware

- For use with all paddles listed above. (Not for use with backers.)
- Contains hardware to attach one paddle to de-hairing machine.
- Set contains: 1 bolt plate, 2 cap screws, 2 cut washers and 2 elastic stop nuts.

ITEM NO.	PRODUCT	SOLD BY
3939 0016	Attachment Hardware for 4" x 9" Paddles	EACH

Char Marking O-Rings

- When precooking patties (for example, beef, chicken or soy patties) and other food products at a high production rate for fast food or for frozen dinners, it is often desirable to simulate the effect of broiling food products on a grill, which is commonly called “char marking” in the food processing industry.
- Char marking improves the eye appeal of the product by branding spaced parallel stripes, giving the appearance that the product was broiled over charcoal on spaced grill bars.

Cure-It Stainless Steel Curing Pump

Washdown design for the food processing industry.

- Powerful, 1/2 hp motor puts less stress on the pump, resulting in extended life — this is the most powerful motor available in a portable unit.
- Fully washdown, no exposed parts. • Only 4 bolts for easy maintenance.
- Platform with smooth surface base has an open-end design to allow the unit to be easy to move and carry.
- The open ends also allow for easier cleaning underneath the unit. Water won't get trapped so less chance for bacteria to form.
- High-velocity fan keeps the motor cool. • On/Off switch.
- Pump is made of stainless steel, USDA/FDA materials.
- Shroud covers motor shaft with drain hole at bottom.
- Rubber grommets on the base and under motor to assist with making the unit very quiet.
- The pressure release valve design allows user to easily adjust pressure with no tools needed.

Oil filled valve for steady needle readout — no more trying to read a bouncing needle.

BUNZL EXCLUSIVE PROCESSOR DIVISION

INCLUDES: Complete Curing Pump Unit with motor, hoses, injection valve, artery needle and spray needle.

Oven, Grill and Smokehouse Cleaner

Removes grease, soot, tar and other accumulations from smokehouse walls, floors and ceilings.

- With a pH of > 12.5 and caustic formulation, it offers the performance of traditional caustic oven, grill and smokehouse cleaners.
- Highly effective on grease, fats, oils, carbon, dirt and baked-on deposits on food prep and cooking surfaces such as ovens, grills, deep fryers, smoke houses and meat curers.
- The thickened formula sticks to vertical surfaces, to allow for longer dwell time and better cleaning.
- Keep away from heat, open flames and sparks.
- Meets A4 guidelines.

Char Marking Rings

SPECIAL ORDER ITEM

- When precooking patties (for example, beef, chicken, or soy patties) and other food products at a high production rate for fast food or for frozen dinners, it is often desirable to simulate the effect of broiling food products on a grill, which is commonly called “char marking” in the food processing industry.
- Char marking improves the eye appeal of the product by branding spaced parallel stripes, giving the appearance that the product was broiled over charcoal on spaced grill bars.

WE'RE YOUR COMPLETE
PACKAGING PARTNER

NATIONAL COVERAGE • OVER 40 YEARS EXPERIENCE

Take advantage of our dedicated EQUIPMENT SERVICE TEAM. Experienced in troubleshooting and repairing all makes and models of rollstock and vacuum chamber machines.

LOWEST LABOR RATES IN THE INDUSTRY

800-888-3610

PREVENTIVE MAINTENANCE MATTERS

Available to any customer with an estimated labor cost of $1,100 — excluding cost of parts and travel expenses. Service normally takes about 10 hours to complete — depending on the condition of the machine and availability of parts.

- Operate faster and with fewer interruptions providing quality and consistency.
- Provides higher safety standards in food safety.
- Reduces costly repairs later.
- Detailed maintenance records as evidence of safety standards.
- Make the most of your investment.

Service will be billed as an hourly rate with a four-hour minimum. Travel expenses will also be billed which would include: travel time, air travel, rental car, lodging and a daily meal allowance. If the service personnel drives to the customer's location, travel time plus mileage charges will apply.

Forming and Non-Forming Barrier Rollstock Films

CLARITY®
FLEXIBLE PACKAGING

NO RETURN

More Robust

- Wider operating window handles a greater variety of forming depths over a broader temperature range making the film more forgiving and easier to use.
- Requires less heat and creates less demand on equipment.
- Premium 11-layer cast coextruded technology.

Better Machinability

- Film conforms easier to machine tooling.

Improved Clarity

- Up to 50% clearer. • Improves retail shelf appeal.

Seals Through Contaminates

- E-seal technology is the choice for value-added product applications such as marinated, pumped, brine, sauced and seasoned and cooked.

Greater Memory

- Improved shrink creates a tighter, better looking package.

Approved For Heat Treatments

- Cook-in applications up to 180 °F for six hours.
- Post-pasteurization conditions up to 212 °F for 30 minutes — Microwave re-heating up to three minutes on high power for previously cooked foods.

Lidding

NO RETURN

SPECIAL ORDER ITEM

We offer top lidding films for thermoformed rigid trays and the form fill and seal process for modified atmosphere packaging (MAP). Our shrink lidding films are coextruded high barrier with superior antilog technologies and crystal clear transparency; perfect for tray sealing.

- Full range of barrier and non-barrier lidding films. • Choose from lock, peelable and peel/reseal technology.
- Superior clarity. • Enhanced anti-fog properties. • Registered or random printing available.
- Films available for sealing to all rigid substrates (PE, PP, PET, APET, RPET).

Vacuum Skin Packaging (VSP)

NO RETURN

SPECIAL ORDER ITEM

Use the right skin film to make your product stand out from competitors' products on the supermarket shelf.

- VSP can be used with semi-rigid films, pre-made trays and coated board stock.
- Provides consumer appeal without compromising shelf life and packaging security.
- Vertical display ability allows for maximum product exposure while conserving space.
- 10-K OTR and Barrier options available.

NEED ASSISTANCE?

NO RETURN

3 Mil Sealed On One End Cook Chill Bags

CLARITY®
C5000 COOK CHILL BAGS

- After filling, the open end is then closed with a clip or impulse sealer.
- Bag is sealed on one end.
- Estimated Volume: 1/2 gallon.
- Size: 10 inches x 18 inches.

NO RETURN

MADE IN USA

On larger bags an angled seal adds extra strength and a surface to hold onto.

Features of Cook Chill Bags:

- **LONGER PRODUCT LIFE —** Oxygen and moisture barriers provide increased protection of flavors. The low rate of gas transmission safeguards volatile flavor components throughout distribution.

- **SUPERIOR DURABILITY —** Easily withstands the rigors of handling and distribution. Tears are extremely difficult to initiate or propagate. This toughness permits the filled bag to be tumbled inside the chiller without danger of rupture.

- **POSITIVE CLOSURE —** Bag is pre-clipped or sealed on one end. After filling, the open end is then closed with a clip or heat sealed.

- **IMPROVED SANITATION —** From the time they are placed in the kettle for cooking, foods are untouched. They can be pumped directly into the cook chill bag at above-pasteurization temperature, which assures greater protection against bacteria.

SAFE HANDLING INSTRUCTIONS

Some food products may contain bacteria that could cause illness if the product is mishandled or cooked improperly. For your protection, follow these safe handling instructions.

Keep refrigerated or frozen. Thaw in refrigerator or microwave.

Keep raw meat and poultry separate from other foods. Wash working surfaces (including cutting boards), utensils, and hands after touching raw meat or poultry.

Cook thoroughly. Cook to 165° F or higher.

Keep hot foods hot. Refrigerate leftovers immediately or discard.

Shrink Film

MADE IN USA

NO RETURN

This multilayered film is versatile enough to perform on all sealing systems and shrink tunnels. The premium resin formulation provides our strongest seals and offers a high shrink force, making it an ideal choice for multi packing and unitizing product.

- Wide window of operation — Performs across a complete range of applications and equipment. Ideal for older equipment.
- Crosslinked technology — Provides consistent sealing and shrinking at a broader range of temperatures.
- Superior sealing performance — On all types of equipment and sealing technology. Yields cleaner, stronger seals eliminating blowouts. Save time and money on expensive rewraps.
- Higher shrink force — Ensures greater package integrity for multi-pack applications.
- FDA compliant — For direct food contact. • Printable — For enhanced marketing opportunities.
- Fully recyclable.

E. Coli Sampling Kit

Designed for sampling meat and turkey carcasses to test for the presence of E. coli.

- Contains a pair of sterile polyethylene gloves, 25 mL buffered peptone water (with expiration date marked on the box) a Whirl-Pak® "Speci-Sponge®" Bag, and two disposable sterile templates, one for meat carcasses and one for turkeys.
- Acquire sample by moistening the sponge with half of the peptone water, the carcass is swabbed with the sponge through the template in three places for meat carcasses and two places on turkeys. The sponge is then returned to the bag and the balance of the peptone water is added. The bag is closed and sent to the laboratory for testing.

ITEM NO.	PRODUCT	THICKNESS	SOLD BY
4220 1324	E. Coli Sampling Kit	2.5 Mil	CASE OF 25

Standard Bags

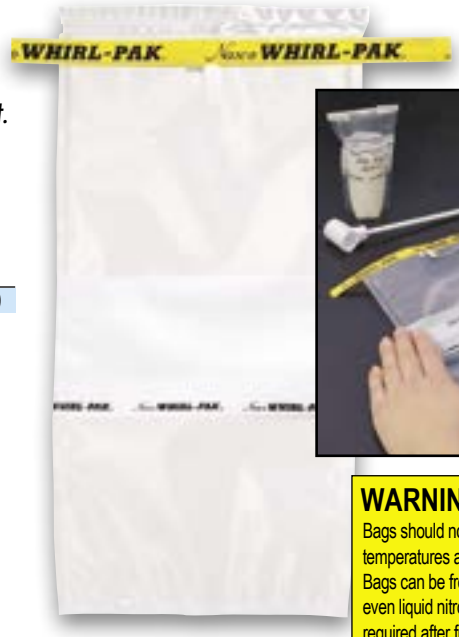

Sterile sample bags are used to take samples of liquids, semi-solids, or solids.

- Puncture-proof tabs are easier and safer to use than any other laboratory sample bag.
- Sterilized by ethylene oxide gas by an independent, ISO-Certified company.
- Documentation of sterility is available upon request.

Write-On Bags

Write-on strip makes sample identification easier and more convenient.

- The paper-like finish virtually eliminates ink smearing and provides a surface that will accept a variety of writing instruments. Ballpoint pen is recommended.
- Some also include approximate fill lines.

NO RETURN

WARNING:
Bags should not be used at temperatures above 180 °F, 82 °C. Bags can be frozen to any temperature, even liquid nitrogen. Careful handling is required after freezing.

Guaranteed Sterile

Whirl-Pak® bags are not autoclavable. Whirl-Pak® bags are sterilized with ethylene oxide gas. Documentation of sterility is available upon request.

"Puncture Proof Tabs"

All Whirl-Pak® bags feature "Puncture Proof Tabs." This patented process extends the tape on the tab past the wire ends eliminating the sharp points which could puncture the bags, scratch a person's hand, or puncture gloves.

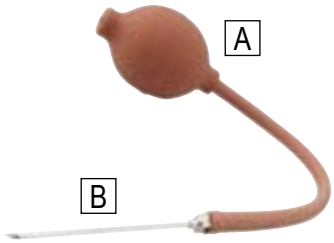

FDA Compliant

Resins used in the extrusion of film for Whirl-Pak® bags are FDA approved for food contact. Bags are manufactured in accordance with the requirements for manufacturers of single service containers for milk and milk products, as specified by the FDA.

Leak Checker

Use for modified atmosphere and vacuum packaging.

- Easily determines if there is a leak in your package due to a wrinkle in the seal area, a tear from the conveyor, or a puncture from a bone.

Oyster™ Series pH/mV Temperature Meter

Can be used in the lab or in the field.

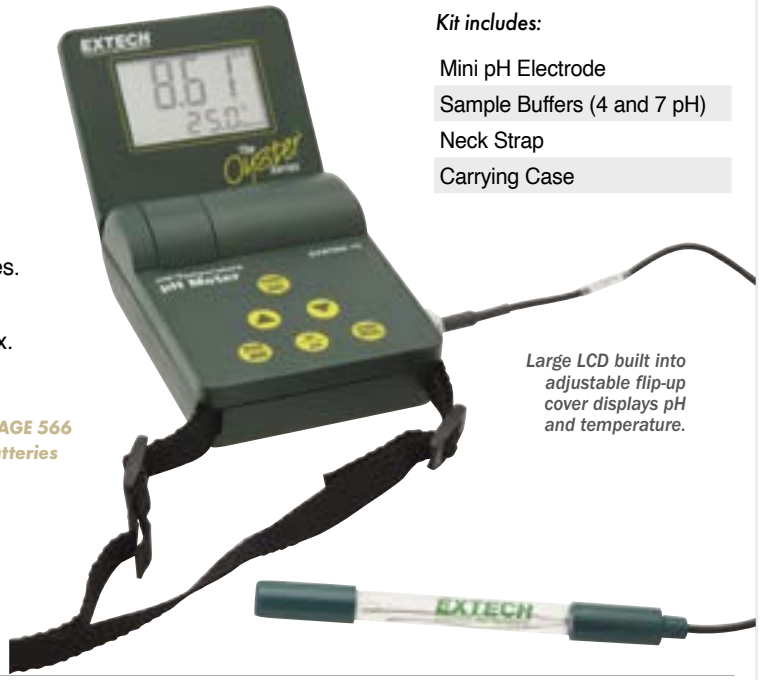

- Measures: pH from 0 to 14.00 pH and is accurate to .02 pH mV from -999 mV to 999 mV and is accurate to 2 mV.
- Temperature: 32° to 212 °F (0 °C to 100 °C); Accuracy: to 0.8 °F (0.5 °C).
- Audible beeper to alert user when function is completed.
- 5 point buffer recognition (1.68, 4, 7, 10, 12.45) with adjustable buffer values.
- Microprocessor protected by a splash-proof housing.
- Memory function stores and recalls 25 labeled readings, including min./max.
- Self-diagnostic display codes help user troubleshoot electrode, buffer, and temperature errors.
- Includes one, 9 V battery.

WHICH THERMOMETER IS RIGHT FOR YOU?

TYPE	CONSTRUCTION	STYLES	USES
GLASS	• Usually filled with mercury, spirit-filled or biodegradable liquids. • Handled delicately because they are fragile and can be easily broken.	• Partial immersion. • Total immersion.	• Partial immersion: Designed for areas with limited space. Subject to outside temperature variables. • Total immersion: Placed entirely into the liquid, therefore, are more accurate – however, more space is required to obtain readings.
ANALOG Dial/Bi-Metal	• Metal or plastic. • Insert probe into the material being measured, the dial face is easily read. • Good substitute for glass thermometer.	• Standard dial face with probe.	• Instead of glass thermometers for applications requiring more durability. • Used around food.
DIGITAL	• Most constructed with a plastic housing, which holds the digital components, and a metal probe.	• Most common uses a thermocouple probe that is designated by the letters, "K", "J" or "T"; and various probe shapes are available.	• Used in many applications – often to measure liquids, gases and solids. • Durable and easy to use.
INFRARED Non-Contact	• Usually constructed of plastic with electronic components.	• Designed to collect energy that has been reflected or emitted from a surface and converts that energy into a specific temperature.	• Perfect for use on moving objects, hard-to-reach objects and hazardous materials. • NOTE: Accuracy diminishes the farther away from the object, and these thermometers are not recommended for HACCP environment or product temperatures.

THERMOMETER CALIBRATION

In order to be in compliance with HACCP regulations we recommend the following thermometers be calibrated or calibration verified. Please follow the manufacturers procedures when calibrating all thermometers. Accuracy will be improved when calibrating to a temperature close to that measured. Always calibrate using a known temperature source (NIST traceable certified thermometer or instrument). Calibration should be performed on a regular basis as indicated by the table to the right.

* Tel-Tru Manufacturing Company recommends: Thermometers used daily should be checked daily to verify their accuracy. ; The method of checking thermometer accuracy should be in comparison to instruments whose accuracy is also verified and documented as traceable to the National Institute of Standards and Testing (NIST).; A known temperature source should be used which is stable, consistent and whose accuracy may be documented as traceable to NIST.; Due to typical standard tolerances of error in various temperature measurement instruments the calibration verification check and recalibration (if necessary) be done at a temperature that is equal to or reasonably close to the critical limit for monitoring a critical control point.

**Calibration must be done at O.E.M. Refer to manufacturer instructions for return shipping information to manufacturer.

Tel-Tru Check-Set Calibrators, 3-Inch Stem or Longer

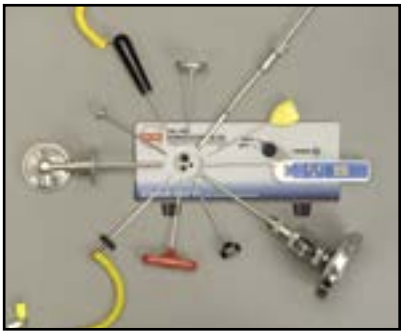

MADE IN USA

Built-in tool makes adjustments fast and easy!

- Insert 3-inch or longer stemmed thermometer with a 3/8-inch, 7/16-inch or 5/8-inch hex calibration nut into the calibrator and twist. Also, please note the hex key is only for those models with 0.125-inch, 0.150-inch, 0.187-inch well insert.
- Verifies the accuracy of any stem dial thermometers and other temperature devices.
- Each unit serialized and certified traceable to NIST. • Accuracy is ± 0.02 °F. • Weight: 9 pounds (4 kg).
- Heavy-duty stainless steel housing. • No batteries required. • 5-foot grounded power cord. • 115 V.
- Check-Set IV (D) has multi-probe receptacles to calibrate all digital and bi-metal thermometers.
- Dimensions: Check-Set I Hot: 11 inch x 6-5/8 inches x 3-1/8 inches. All other Models: 8-3/4 inches x 8-7/8 inches x 4-1/4 inches.

NOTE: Additional stem well sizes available as accessory to use with 3327 00281, 3327 00371 and 3327 03101. SEE BELOW.

Check-Set II (C) and Check-Set IV (D) have multiple points of calibration so you can calibrate closer to the temperature points you use in actual applications — increasing the accuracy of your thermometers!

Single-Use, In-Transit Temperature Recorder

Easy-to use, portable, self-contained temperature recorder provides permanent records.

- An inexpensive and reliable way to monitor conditions during storage or transportation of temperature sensitive products. Battery powered, it generates a permanent strip-chart record of temperature conditions; the receiver simply removes the chart to review the temperature history of the shipment.
- Temperature range: -20° to 100 °F/-29° to 38 °C. • Simple to operate.
- NIST traceable calibration. • Visible start-up verification. • Available in 10 and 40 day charts.
- Dimensions: 6-1/2 inches L x 2-3/5 inches W x 3-1/2 inches H. • Weight: 10.5 ounces.

Temprecord Temperature Data Loggers

For monitoring perishable or temperature-sensitive products in transit or as part of the cold chain.

- Fully welded food grade plastic case. • FDA compliant. • Recyclable.
- Case Protection Waterproof to IP67 and/or Nema 6.
- Manganese Dioxide Lithium (3.0 V) battery. Enclosed in logger.
- Compliance made easy with automated PDF report generation. Use speed-buttons from TempWrite software to: Save as TempWrite *.TWD files; Save as *.PDF files; Export to MS Excel; E-mail or print.

B

Optional probe with easy-to-grip plastic probe handle.

LED Status Indicators: 'Within limits' (Green) LED Indicator and 'Out of limits' (Red) LED Indicator allow instant confirmation of recorded data being within or outside of specified upper and lower temperature range.

Push Button feature allows User to 'Start' or 'Stop' data logger in the field. Also allows for the setting of indication 'Markers' during data recording for future reference. Functionality of the Push Button can be enabled or disabled through TempWrite software.

Fully moulded and ultrasonically welded retaining hole for easy securing of the data logger within different environments.

A

LED Status Indicators: By simply pressing button to view status, the ✓ (green) and ✕ (red) LED indicators allow instant confirmation of recorded data being within or outside of specified upper and lower temperature range. When button pressed and released, the green LED will flash three times if recorded temperature is within limits or the red LED will flash three times if recorded temperature is outside limits.

Push button feature allows user to 'Start' or 'Stop' data logger in the field. Also allows placement of tags. Functionality of the Push Button can be enabled or disabled through TempWrite software.

A. MON-T² Economy Logger

Ideal for transportation!

- 16K non-volatile memory.
- Temperature accuracy: 1 °F/0.5 °C.
- Case range: -22° to 140 °F/ -30° to 60 °C.
- Display resolution 0.1 °C/0.1 °F
- No traceable calibration certificate available.
- Sample capacity: 16,384 samples.
- Recording duration: 8.8 hours (up to 12 months).
- Easily download data using Temprecord Reader Interface.
- Dimensions: 3 inches L x 2-7/8 inches W x 5/8 inches D (77-1/2 mm L x 73-1/2 mm W x 14 mm D).
- Push button start/stop/status.
- Weight: 1.62 ounces (55 g)
- Compatible with Windows 7, 8 and 10.
- Warranty: 12 months or 200,000 samples.

C. USB Reader Interface

Required to read/download data from loggers.

- Connect to computer via USB port.

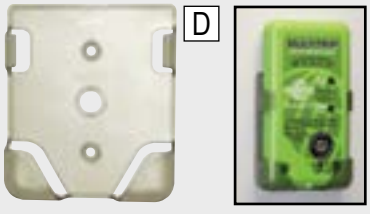

C

D. Optional Plastic Logger Holder

Allows for mounting logger to wall or surface.

D

B. MULTITRIP Logger

Available with or without plastic handle probe.

- 8K non-volatile memory.
- Calibrated temperature accuracy: 0.35 °F/0.2 °C.
- Case range: -13° to 140 °F/-25° to 60 °C.
- Display resolution: 0.01 °F/0.01 °C.
- 3-Point Calibration built into logger: Superior accuracy with no need for corrections or calculations to be applied to downloaded data; avoids human data entry errors.
- Traceable Calibration Certificate included.
- Sample capacity: 7,935 samples.
- Recording duration: 4.4 hours (up to 2 years).
- Push button start/stop or mark.
- Weight: 2.85 ounces (81 g).
- Dimensions: 5-1/8 inches L x 2-7/8 inches W x 5/8 inches D (129 mm L x 73-1/2 mm W x 14 mm D).
- Compatible with Windows XP, Vista and Windows 7
- Warranty:12 months on logger; 24 months on battery.

Template Kit

Simplifies the process of cutting bulk roll material into individual door strips.

- Fabricated of non-slip 1/4-inch acrylic.
- Dimensions are permanently etched directly on the template.
- Special drill bit bores a perfectly round hole into material to prevent tearing.
- Kit includes template, drill bit and marker.

NOTE: We recommend mounting these doors 1 foot above door opening to eliminate tearing strips with tall loads.

ITEM NO.	PRODUCT	F.O.B. FACTORY SOLD BY
G368 2700	Quickmount™ Template Kit	EACH

All strip doors are designed to mount on either the inside or outside wall above the door opening with a minimum of 5" overlap on each side.

How to figure the AMOUNT OF STRIP NEEDED

1. **Measure** the opening in feet (WxH).
2. **Add** 1 foot to the door height and width, depending on space available.
3. **Calculate** using the following formula in feet:
   - 6" Strips — (W x H) x (1-1/2) x (2)
   - 8" Strips — (W x H) x (1-1/2) x (1-7/10)
   - 12" Strips — (W x H) x (1-1/2)

8-inch PVC Strips 50% overlap.

8-inch PVC Strips 100% overlap.

Aluminum HD Strip Door Mounting Hardware

- 70% faster installation time – 90% faster strip replacement time.
- One-piece, heavy-duty 1/4-inch thick aluminum construction won't rust or corrode.
- Use 3/8-inch bit to drill holes in strip material or template kit shown on facing page.
- 2-inch sections of mounting hardware snap together. • Includes installation instructions.

WHY REPLACE DOOR STRIPS?

- To reduce the transfer of contaminates between work areas.
- Old strips harbor bacteria in the cuts and cracks that form as a result of impact. • Worn and scratched strips cut down on visibility and safety.
- Maintain Temperature Integrity — Worn out strips have holes and cracks which allows cold air to escape and warm air to infiltrate.

E-Z Hang™ Clear Vinyl Door Strips

The BEST door strip program available!

- Able to withstand heavy traffic including forklifts.
- Made from a non-phthalate formulation.

NOTE: Other sizes available. CALL FOR MORE INFORMATION.

Mesh and Vinyl Roll-Up Doors

Complete kit ready to install!

SPECIAL ORDER ITEM

Benefits:

- Significantly reduces heat loss while allowing light into work areas.
- Keeps out unwanted pests, birds and intruders.
- Controls airborne contaminants and improves building appearance.
- Mesh allows fresh air to flow through for comfort and productivity and helps meet FDA and AIB requirements.
- Three year warranty — one year warranty on motor drive mechanism.

Features:

- High speed: up to 36 inches per second.
- Low maintenance: no cables, wheels, springs or sewn construction.
- Wind load rated: 45 mph wind load*.
- Durable: fiberglass windbars won't bend or break. Automatically resets after impact.
- Quick and easy installation: upper box completely assembled in factory.
- Multi-season: exchangeable panels available in mesh, clear and solid vinyl.
- Fire resistant: meets NFPA-701 and CSFM standards for flame retardancy.
- Resistant to all ultraviolet rays and is rot, tear and mildew resistant.

Available Options:

- Vinyl Door color options: gray, black, blue, beige, green, red, yellow, orange and white.
- Mesh Door color options: gray, black, almond, royal blue, spruce green, yellow and red.
- Operations include: manual chain hoist, 18 inches per second (in tube motor), 28 inches per second and 36 inches per second (external mounted motor).
- Various Control Options: hardwired and RF available to meet your specific application.
- Outside face mount or inside projection mount available.

* Wind load tested on a 10-inch x 12-inch solid vinyl roll-up door per ANSI/DASMA 108-2002.

Flexible Airguard® Doors

F.O.B. FACTORY | SPECIAL ORDER ITEM | NO RETURN

Series 100 Doors *Models Numbers 100E and 100CE*

- Meets USDA requirements. • 45-ounce, heavy-duty, abrasion-resistant vinyl coated nylon.
- Large 30 x 14-inch vision panel made from shatterproof polycarbonate.
- Top mounted gravity actuated hinge provides completely automatic operation. Opens instantly upon contact and closes automatically by gravity.
- 48-inch heavy-duty, 1/8-inch thick Kydex® impact plates mounted front and back of each door.
- Available in green only.

Model 100E (photo)

Model 100CE

UNIFLEX 240 PVC Door *Models Number 240PVC*

- Constructed of two layers of 0.12-inch PVC heat welded together to a thickness of 0.24 inches and textured embossed finish.
- 15 x 14-inch clear vinyl window centered in each panel.
- Meets USDA requirements.
- Top mounted gravity actuated hinge provides completely automatic operation. Opens instantly upon contact, then closes automatically by gravity.
- Colors: navy, royal blue, chocolate brown, medium brown, forest green, red, metallic gray and black.

Top Mounted Gravity Hinge – allows the door to open fully and close automatically. Optional bracket arm adjustment feature compensates for jambs that are not plumb.

300 Belted Door *Models Number 300 Belted*

- For heavy use forklift and/or freezer applications down to -30 °F.
- Wiper seals are provided at bottom and top.
- Balloon seals provided at jamb edge of each door.
- Window centered in each panel 15 inches x 14 inches.
- Constructed of two layers of abrasion-resistant, two-ply “belting” material bonded together.
- Top mounted gravity actuated hinge provides completely automatic operation. Opens instantly upon contact, then closes automatically by gravity.
- Available in green only.

Top Mounted Gravity Hinge – allows the door to open fully and close automatically. Optional bracket arm adjustment feature compensates for jambs that are not plumb.

973 Standard Forklift Doors *Models Number 973*

- NOT for freezer applications.
- Constructed of 0.16-inch thick, PVC door body with a two-ply, vinyl coated nylon bracket pocket.
- Top mounted gravity actuated hinge provides completely automatic operation. Opens instantly upon contact, then closes automatically by gravity.
- Extra-large viewing area allows clear visibility and maximum safety.
- Balloon seals provided at jamb edge of each door, top and bottom wipers.
- Textured vinyl impact plates on both sides increases strength and durability of door.
- Available in black or red.

Top Mounted Gravity Hinge – allows the door to open fully and close automatically. Optional bracket arm adjustment feature compensates for jambs that are not plumb.

CR1400 Corrosion Resistant Urethane Door

Manufactured to withstand the most corrosive environments from saltwater, chemicals, detergents, chlorine, acid, to humidity and more.

- Constructed with a 1/8" thick outer skin of rotationally molded polyethylene with an ultra high density foamed-in-place core.
- The panel can retain its properties from 30°F to 100°F continuous service, and 140°F intermittent service with temperature differences of up to 40°F.
- The overall thickness of the panel is 1-3/4", yet weighs only 3.66 pounds per square foot, making it lightweight and easy to open.
- The sanitary surface never needs painting and cleans easily with soap and water.
- All doors come standard with a replaceable bottom sweep, and are available with a drop down seal. Full perimeter gasketing is available.
- The CR1400 has excellent insulation qualities with an EcoMate foamed-in-place NON-CFC urethane core. Ecomate insulation is designed to be environmentally friendly; it was awarded VOC (Volatile Organic Compound or SMOG) Exempt Status by the EPA.

Every Door is CUSTOM MANUFACTURED to Your Exact Requirements.

- One person installation with built-in self-leveling kit. • Choose from 45 or 90 Watts.
- Lumen Output: Up to 5,000 (45 W); Up to 10,000 (90 W). • Voltage: 120-277 V.
- Operating Temperature: -22 °F to 113 °F (-30°C to 45°C). • Up to 122 °F (50 °C) in 5,000 lumen package.
- Dimming: 0-10 V. • Weight: 7-1/2 pounds. • Dimensions: 13 inches L x 10-1/4 inches W x 5-3/5 inches H.

SPECIAL ORDER ITEM

At 7-1/2 pounds, this fixture is extremely light-weight.

Thumb screw makes junction box easily accessible and can be loosened or tightened without using any tools; allows for a simple one-person installation.

Stainless steel screws are corrosion-resistant and can withstand the harshest environments.

Tapered fins allow for water runoff so the fixture can be washed down with high-pressure as often as needed.

Frosted polycarbonate lens (shown) is 1 of 5 lens options. This particular lens is optically engineered to eliminate hot spots and create uniform, glare-free illumination.

Shat-R-Shield® Waterproof LED Lamps

IP68 Waterproof, Safety-Coated LED lamps have a thin layer of silicone coating that completely seals the lamp to protect fragile electronic components against moisture, corrosion and premature failure. Ideal for any application exposed to harsh environments.

- Shatter-resistant, safety-coated lamps will contain all particles if the lamp is accidentally broken.
- The coating does not affect light output. <1% lumen loss.

Aurora™ Linear, High-Bay Lighting Fixture

FX LIGHTING™ A QSSI Company Since 1985

Designed for harsh environments found in food processing, heavy manufacturing, old storage, warehouse and distribution facilities.

- Die-casted aluminum alloy construction.
- NSF 2 rated to be suitable for use in a food prep facility.
- IPP66 waterproof rated — suitable for power washing up to 1,400 PSI.
- Operates in extreme temperature ranges from -40°F to 131° F (-40°C to 55°C).
- No places for bacteria to shelter and contains no glass or other breakable parts.
- Chain mounted. • Color: Gray. • 22,500 lumens; 120-277 volts.
- 5000 K color temp, with 80 color rendering index (CRI).

Extrutech Tongue and Groove 1/2-Inch PVC Ceiling and Wall Covering

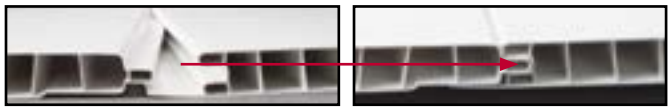

Stain-resistant, low-maintenance, waterproof panels are also easy to clean and ideal for high moisture areas. Materials are totally recyclable. Never needs painting and will not rot or rust.

NOTE: Not for use in freezer applications.

- Panels meet ASTM E-84-05 and CAN/ULC S102.2-3 Class A fire rating.
- Custom cut lengths up to 20 feet long. • No exposed fasteners.
- Can easily be cut using fine tooth blade, table saw or utility knife.
- Panels are 100% recyclable and do not support mold or mildew per ASTM D3273 and D3274.
- Panels are extruded from exterior-grade PVC. • Easy to install using the tongue and groove system.
- Cleans with pressure washers or soap and water. • Can be attached directly to walls and ceilings. • Limited 10 year warranty.

F.O.B. FACTORY

Panels slide together with tongue and groove design leaving no exposed fasteners to rust or promote mold or bacteria growth. Use stainless steel screws to connect nailing fin to wall or stud.

Call 800-456-5624 for Custom Room and Ceiling quotes.

Dura-Seal 400 Light-Duty Industrial Concrete Floor Coatings

Chemically resistant and good in a water environment. Odorless after curing.

- One, 2-gallon container applies two coats over 325 sq. ft.
- By mixing 50/50, coating penetrates pores and forms a solid surface plate recognized by the USDA as a contaminant barrier.
- Apply by roller, brush or spray — leaves an easy-to-clean, hard, glossy surface suitable for incidental food contact.
- Meets all USDA and EPA standards.
- Quick-drying coating hardens to a 6-8 mil thickness.

Dura-Poxy Industrial Heavy-Duty Concrete Floor Coatings

MADE IN USA

A heavier-bodied "100% solids" catalyzed epoxy laminate. Very hard and highly chemically resistant. No odor. Hardens even in a water environment. Accepted by the USDA for Incidental food contact use. For use on floors with major irregularities.

- 8-hour curing time. • 1 gallon covers 125 square feet. at 8-10 mil.
- Quick drying coating hardens to a 20 mil thickness with 2 coats.
- For use on floors with major irregularities in the surface and floors that require maximum resistance to damage from falling tools, forklifts and similar causes of harm.
- Mix with quartz chips for high skid areas (such as wet or frosty environments) and to form a coating that is resistant to the passing of steel wheels or other heavy machinery.

NOTE: Require temperatures of at least 55 °F during application.

Optional Quartz Granular Surface.

NOTE: Must purchase floor prep/cleaning products shown below to validate manufacturer warranty.

Sahara Pro X3 TurboDryer

Incredibly powerful static pressure and huge CFM volumes!

- Daisy-chain capability with built-in power outlet and circuit breaker.
- Low amp draw – 4 amps max!
- Excellent versatility with 3 speeds and 3 operating positions – 0°, 45° and 90°.
- Underside drying vent for drying under the airmover.
- Quick disassembly for cleaning.
- Rated airflow: 2700 CFM (4587 CMH).
- CFM/amp: 235.
- Static pressure: 1.28 inches (3.25 cm).
- CFM per 15 amp circuit: 2817 CFM, tested.
- Airflow velocity: 2,071 feet/minute (631 m/minute), tested.

UP TO 1000 CFM

CFM stands for "**cubic feet per minute**" and is a measure of air flow capability.

Example: a 1000 CFM blower or fan can move air from an area 10 feet x 10 feet x 10 feet in one minute.

3-Position air flow allows air to be directed where you need it.

Food Grade Lubricants

CRC NSF registered H1 products meet the highest standards of safety and performance. CRC's line of food grade products deliver exceptional lubrication and protection in food processing and manufacturing environments.

Perma-Lock® 2-Way Integrated Actuator

No-slip actuator holds spray straw securely in place, and offers two distinct spray patterns: wide spray in the "down" position and precision spray in the "up" position.

QR Code

Provides instant access to the allergen certificate, NSF registration letters and safety data sheets for each specific product.

Can Design

White dome-top differentiates food grade products from other MRO chemicals on the plant floor.

Green Band Product Name

Prominently displayed product name ensures immediate recognition of its designated purpose.

H1

CRC Food Grade lubricants are registered as H1 with NSF, making them acceptable for use in areas that have incidental food contact.

Magna-Plate Food Grade Grease

NO RETURN

For use on machinery where grease may come into contact with edible product.

- White grease has excellent water-resistance and lubrication qualities.
- Good oil bleed characteristics at low ambient temperatures make it ideal for small, high-speed bearings.
- Standard grease is for temperatures under 250 °F (121 °C).
- High-Temp grease is for temperatures 500 °F (260 °C).
- Fits standard hand-operated grease gun.

FOOD GRADE H1

ITEM NO.	PRODUCT	SOLD BY

FAQ

iFly Wall-Mounted Stainless Steel Adhesive Traps

GARDNER

MADE IN USA

Stainless steel commercial grade construction can withstand harsh environments.

- Easy-to-clean. Just replace adhesive trapping boards.
- Easy to install. Built in mounting slots help with mounting and levelling.
- IP65 — dust proof and waterproof. • Energy-efficient UV Insect Lamps.

A. iFly40 Adhesive Trap

- Attraction range: 1,150 square feet.
- UV Light output: 40 Watts. Uses two 24 inch, 20 Watt shatter-coated sleeved bulbs.
- Uses one 12 inch x 22 inch water-resistant glueboard.
- Dimensions: 11 inches W x 28 inches H x 5 inches D.

B. iFly65 Adhesive Trap

- Attraction range: 2,500 square feet.
- UV Light output: 80 Watts. Uses two 48 inch, 40 Watt shatter-coated sleeved bulbs.
- Uses two, 12 inch x 22 inch water-resistant glueboards.
- Dimensions: 11 inches W x 53 inches H x 3 inches D.

A

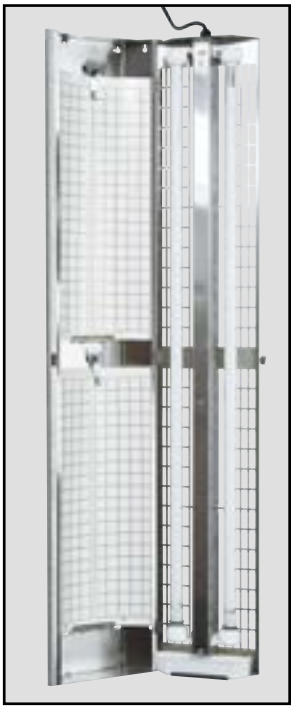

B

THE ONLY 2 FOOT AND 4 FOOT GLUEBOARD FLY LIGHTS THAT ARE BOTH WATERPROOF AND STAINLESS STEEL.

Easy bulb and glueboard replacement.

Fiberglass, Square Grid Floor Grating

SPECIAL ORDER ITEM

F.O.B. FACTORY

- Weighs about one-quarter as much as steel grating.
- Available with a grit top or a concave, plain meniscus top.
- Integral grit top surface provides outstanding anti-slip protection for workers.
- Unlike metal grating, GatorGrate does not rust, never needs painting and is corrosion-resistant.
- Easy-to-clean. Smooth, tapered bars allows debris that enters the top to come out of the bottom.
- Can be easily cut with ordinary hand tools, using a masonry, carbide tip blade or diamond edge.

NOTE: More sizes available. Call for more information.

Cuts+More™ Scissors

Not your average scissors!

- Fully hardened, precision-ground steel blades stay sharp, even when cutting a wide range of heavy-duty materials.
- Ergonomically sculpted handles provide comfortable use and cutting control.
- Pointed awl tip is perfect for piercing small holes in cardboard, leather, etc.
- Dishwasher safe for easy cleaning.
- Scissors can be taken apart for a titanium-enhanced knife that is ideal for cutting large or awkward objects.

Sharp enough to easily cut through poultry.

Box/tape cutter built into sheath.

FISKARS®

Breaks apart to use one side as a knife.

Use as wire cutter for maintenance.

Ideal twine cutter built into blade.

Serves as a handy bottle opener.

Includes sheath with built-in sharpener.

2182 57101	Cuts+More™ Shears, 9" Length	EACH

Hot Melt Adhesive

RELIANT

Hot melt adhesive ensures superior bonding and is perfect for sealing boxes and cartons.

- Forms stronger bonds with less adhesive – reliably closes more boxes using less glue.
- Fast setting time solidifies within seconds of application.
- Convenient soft, cylindrical adhesive pellets.
- Clean and consistent adhesive reduces maintenance, repair and parts replacement on sealing machines.

ITEM NO.	PRODUCT	SOLD BY
H336 0042	Reliant Hot Melt Adhesive	BOX OF 25 LBS

Nordic Ice Temperature Control Packs

Packs are reusable and non-toxic, stay frozen longer than ice. Economical to use.

- When packing, place gel pack on top of product. Leave as little dead space as possible.
- Biodegradable.
- Freezes solid.

NOTE: Sold by case only.

WorkHorse® SAFETY PRODUCTS

UNIQUELY BUILT FOR FOOD PROCESSORS.

What makes a WorkHorse®?

Extensive Research

Our *Product Development* team looks at the demands of the market and determines what products can be improved, with the goal of providing a reliable product at a competitive price.

Reliable Sourcing

Our *Category Managers* find the manufacturer that best fits with the WorkHorse® product being developed – ensuring the product can be produced to the correct specs with a stable and expedient supply chain.

Extended/Rigorous Trials

Our *Innovation Center* tests our WorkHorse® products in the harsh environments of the food processing industry to ensure the product life during testing is equal to or longer than its expected life during normal working conditions.
